JOIN

These pillars form the foundation on which we build and design our undergraduate programs and curricula.

We are a community.
We prepare together to lead and turn ideas into action in an ever-changing world.

We anticipate change.
We learn to adapt and use our creativity to create possibilities where others see obstacles.

We think and feel.
We understand that an individual triumph is not possible when our future is collective. We work to improve our environment.

We invest in our community.
We are a non-profit university whose main objective is to educate upright and genuine people and professionals.

These are our fourteen undergraduate programs, which also have more than fifty specialties:

- Management
- Architecture
- Communication
- Accounting and Finance
- Law
- Economics
- Environmental Engineering
- Civil Engineering
- Industrial Engineering
- Mechatronics Engineering
- Systems Engineering
- Marketing
- International Business
- Psychology

OUR

COMMUNITY

OUR PURPOSE

One of our objectives at Universidad de Lima is to inspire the country with new ways of doing business. We believe that it is possible to develop an ethical, responsible and horizontal organization that contributes to the community in which it grows and is built around the following axes.

It is aware of its environment:

It knows that its actions have consequences in the surrounding community and decisions are made seeking a positive impact.

It sees opportunities in diversity:

It values and recognizes people's differences. Then it integrates them and builds strengths from them.

It believes in collective victories:

It is horizontal and open. Instead of prioritizing individual development, it chooses work systems that favor all the people who belong to it.

It is committed to sustainability:

It is aware that development is sustained over time due to human capital, respect for resources, care for the community and work with consistent ethics and values.

ACCREDITED PRESTIGE

FOR MORE THAN 60 YEARS, OUR EDUCATIONAL MODEL HAS EARNED NATIONAL AND INTERNATIONAL RECOGNITION, PROVIDING ULIMA STUDENTS AND GRADUATES WITH A STRONG ACADEMIC FOUNDATION FOR PROFESSIONAL SUCCESS.

IAC-CINDA: It accredits the quality of professional education and institutional academic management in accordance with international standards.

SUNEDU: We are one of the first universities to obtain the institutional licensing at national level that accredits the quality of our educational process.

ABET:¹ It ensures that engineering programs uphold globally recognized standards of academic quality.

CONAC: The Psychology and Communication programs hold accreditation from the Consejo de Acreditación de la Comunicación y las Ciencias Sociales (CONAC), affirming the quality of their curricula, faculty excellence, and student support services, and ensuring an education aligned with national priorities and international standards.

QS Ranking:

- **Top 5** among the best universities in Peru.²
- **Top 100** among the most prestigious universities in South America.³
- **Among the 1,200** most recognized worldwide.²

Consortium of Universities: We are part of this prestigious alliance of four leading Peruvian universities, including Pontificia Universidad Católica del Perú, Universidad del Pacífico, Universidad Peruana Cayetano Heredia and Universidad de Lima.

EQUAA: Academic member since 2024. The Management and Marketing programs hold the Platinum Class (four-star) distinction for five years, reflecting exceptional academic excellence.

ACCA (Association of Chartered Certified Accountants):⁴ The Management and Accounting and Finance programs hold Registered Learning Partner (RLP) status from the Association of Chartered Certified Accountants (ACCA). This recognition positions Universidad de Lima as the first university in Peru to achieve this distinction and underscores its commitment to education aligned with global standards.

¹ ABET (Accreditation Board for Engineering and Technology) is a prestigious organization that accredits higher education programs in applied and natural science, computing, engineering and engineering technology worldwide. The Industrial Engineering and Systems Engineering Undergraduate Programs are accredited by ABET.

² QS World University Rankings 2026.

³ Source: QS Latin America & The Caribbean Rankings: South America 2025.

⁴ ACCA (Association of Chartered Certified Accountants): It accredits advanced academic and professional knowledge in accounting, finance, and management, ensuring competencies with global recognition.

CAMPUS

In an area of more than 70 000 square meters located at Avenida Javier Prado Este, our campus is home to more than 30 000 students in fourteen professional undergraduate programs within seven schools.

ULIMA SPACES

THESE ARE SOME OF THE SPACES WHERE YOU WILL LIVE UNIQUE EXPERIENCES FOR YOUR PROFESSIONAL AND PERSONAL DEVELOPMENT.

Center for Entrepreneurship and Innovation.

You will be part of different awareness activities to promote the entrepreneurial culture. You will receive specialized and personalized advice in the creation, design and incubation of companies.

Center for Employability, Professional Engagement, and Alumni.

You will receive practical tools to build and position your personal brand, along with direct access to employment opportunities at leading companies nationwide.

Sustainability Center (RespondeUL).

You will receive guidance on the management of strategic projects that contribute to poverty reduction, environmental stewardship, and respect for diversity.

Language Center.

You will be able to prepare yourself to achieve language proficiency to develop in a globalized and competitive world.

Library.

More than a space for books, our Library serves as a dynamic academic hub that fosters collaboration and intellectual exchange. The eight-story building, which includes one basement level, meets the highest quality standards and accommodates up to 2,800 users. The first floor features open study areas for individual and group work; and the top floor offers a terrace.

Cultural Center.

A creative space for meeting and enjoyment that conceives and disseminates cultural projects. The Cultural Center has a theater, a movie theater called Ventana Indiscreta (Indiscreet Window), auditoriums and a gallery.

Sports Complex.

It houses multiple spaces for the sports development of our students and graduates. Among these are the soccer field, the semi-Olympic swimming pool, the multi-sports complex, the climbing wall for bouldering, and the like.

Zone of Artistic Expression (ZEA).

It is implemented for artistic workshops and other extracurricular activities.

Parque Cruz del Sur.

A dynamic outdoor space dedicated to well-being, featuring green areas, a multipurpose sports court for futsal, basketball, and volleyball, and a variety of dining options. It invites students to recharge, stay active, and enjoy an environment that enhances their campus experience.

Campus Dining.

Universidad de Lima features cafeterias located in Buildings O and F2, the Library, and Parque Cruz del Sur, along with a variety of restaurants and kiosks throughout campus. These spaces provide daily breakfast, lunch, and dinner options that enhance student life.

MASTER PLAN

WE CONTINUE TO GROW AND SO DOES OUR CAMPUS.

We create unique spaces and environments for our university community.

The first phase of our Master Plan began with the construction of the University Wellness Center (CBU).

It was followed by the opening of the new Library at Universidad de Lima—an eight-story, modern facility with a basement level, thoughtfully designed to inspire learning, research, and innovation.

RECREATION, WELLNESS AND STUDENT LIFE CENTER

HERE YOU WILL FIND THESE SPACES DESIGNED FOR YOU:

- Study rooms
- Viewing room
- Sports area with a gym, jogging track, yoga room, showers, dressing rooms, sports court and spaces to practice table tennis
- Auditoriums for conferences, concerts and other activities
- Food court

Foto: José Palacios

ART AND CULTURE ON CAMPUS

IF YOU ARE AN ART LOVER, YOU WILL ALWAYS FIND SOMETHING TO SEE AND DO. OUR **CULTURAL CENTER** ORGANIZES AND PRODUCES THEATER AND FILM FESTIVALS, FILM SCREENINGS, ART EXHIBITS AND LECTURES.

FOR THIS PURPOSE, IT HAS THE FOLLOWING SPACES:

- Main theater
- Zone of Multiple Uses (ZUM) Auditorium
- *Ventana Indiscreta* movie theater
- Auditorium
- Gallery

ART WORKSHOPS

WE ALL HAVE ARTISTIC SKILLS. DISCOVER AND DEVELOP YOURS IN OUR FREE AND FREE-OF-CHARGE WORKSHOP.

- Afro-Peruvian Dance
- Andean and Amazonian Dances
- Cartoon and Drawing
- Comedy
- Contemporary Dance
- Debate
- Latin Dance
- Musical Ensemble
- Music
- Narrative and Poetry
- Northern Dance (Marinera)
- Painting
- Theater
- Voices

SPORTS SPACES

FOR YOUR COMPREHENSIVE DEVELOPMENT, WE HAVE A **SPORTS COMPLEX**, LOCATED IN THE MAYORAZGO NEIGHBORHOOD, WHICH IS EQUIPPED WITH THE FOLLOWING:

- Synthetic grass soccer field
- Three indoor multi-purpose courts for basketball and volleyball
- Semi-Olympic heated and indoor swimming pool
- Multipurpose coliseum for futsal, volleyball and handball
- Climbing wall for bouldering
- Combat sports and weightlifting rooms
- Tennis court
- Padel court
- Fronton court

In addition, Universidad de Lima offers dedicated spaces for chess and table tennis. Students also have access to an on-campus sports complex featuring a fitness center, a jogging track, and additional facilities within the University Wellness Center.

SPORTS DISCIPLINES

EDUCATION TRANSFORMS AND SO DOES SPORT. OUR SPACES ENCOURAGE THE PRACTICE OF TWENTY SPORTS DISCIPLINES WHICH GIVE YOU THE OPPORTUNITY TO REPRESENT THE UNIVERSITY:

- | | | | |
|--------------|---------------------|----------------|-------------------|
| • Basketball | • Judo | • Rugby | • Taekwondo |
| • Chess | • Karate | • Shooting | • Tennis |
| • Climbing | • Kung-fu | • Soccer | • Track and field |
| • Fronton | • Olympic wrestling | • Swimming | • Volleyball |

START A BUSINESS WHILE AT UNIVERSITY

DO YOU WANT TO START AND LEAD YOUR OWN BUSINESS? DO YOU HAVE A STARTUP IN MIND? AT ULIMA WE PROMOTE INNOVATION AND ENTREPRENEURSHIP WITHIN OUR COMMUNITY.

At our Center for Entrepreneurship and Innovation, you will receive free personalized counseling to turn your ideas into real projects and businesses. You can also take part in workshops, events and talks about innovation and entrepreneurship.

Our **Primer Paso (First Step) Competition** promotes Ulima students' and graduates' startups. If you participate in the competition and your project is chosen among the best, you will receive as a prize a seed capital to start it up. In addition, we provide a startup incubation plan and a coworking space to develop the business ideas of the selected projects.

FUTURE CAREER

DID YOU KNOW THAT WE RANK FIRST FOR PRODUCING MOST CEOs AND GENERAL MANAGERS NATIONWIDE¹?

Ulima is ranked **500** among the world's top universities for graduate employability².

According to Merco Perú, Ulima graduates are recognized in the national ranking of leaders for their strong professional reputation.³ In addition, the study *Imagen del egresado universitario entre empleadores*, conducted by Ipsos Perú,⁴ ranks them among the highest-paid professionals in the country⁵ and among those best positioned to attain senior leadership roles.

CENTER FOR EMPLOYABILITY, PROFESSIONAL ENGAGEMENT, AND ALUMNI

We will enhance your employability, accompany you in the development of your personal brand by providing you with the necessary tools, and guide your insertion in the labor market through our various services.

- The largest on-campus university job fair in the country, exclusively for our students and graduates.
- Exclusive recruitment of our students by leading companies.
- Workshops and counseling to improve your employability.
- Virtual competency test to know your strengths and opportunities for improvement.
- Job board with job offers from the country's leading and most important companies.

MORE THAN 50 COMPANY TALKS PER YEAR.

JOB BOARD ONLY FOR ULIMA STUDENTS AND GRADUATES

More than 11,000 job offers per year.

More than 6,000 leading companies registered in our database.

CREATE A POSITIVE IMPACT

DO YOU WANT YOUR ACTIONS TO BENEFIT YOUR COMMUNITY? AT ULIMA, AS PART OF OUR PURPOSE, WE TRAIN FUTURE PROFESSIONALS WHO PLAY A LEADING ROLE IN BUILDING A BETTER WORLD.

The purpose of our **Sustainability Center** is to manage strategic projects of social, environmental and corporate responsibility.

- We seek to contribute, through university training and action, to the fight against poverty, caring for the planet and respect for diversity, aligned with the UN 2030 Agenda.
- We promote academic training with social and environmental awareness through volunteering in the Ulima community.
- We promote new ways of doing business through the creation of social startups that impact the sustainable development of the country.
- We develop initiatives that contribute to the consolidation of a sustainable Ulima campus, mitigating our carbon footprint and managing the use of paper, plastic and waste.

RESEARCH

The Scientific Research Institute (IDIC) at Universidad de Lima promotes, manages and disseminates the academic research work of our university professors who, in this way, seek to contribute to the scientific, technological and social development of the country.

AREAS AND LINES OF RESEARCH:

- Communication and culture
- Quality of life and well-being
- Productivity and employment
- Law, State and democracy
- Natural resources and environment
- Business development

The University Press at Universidad de Lima publishes, prior evaluation and approval, books and journals that collect academic projects and research works carried out by professors and researchers of the various faculties of our University.

INTERNATIONAL ULIMA

EVERY YEAR, STUDENTS FROM DIFFERENT UNDERGRADUATE PROGRAMS DECIDE TO LIVE AN INTERNATIONAL EXPERIENCE TO REINFORCE THEIR SKILLS AND BROADEN THEIR PERSONAL AND PROFESSIONAL NETWORKS. **YOU CAN BE ONE OF THEM.**

Universidad de Lima participates in multiple international networks that foster collaborative research and academic exchange, support the continuous improvement of education, and strengthen our position as a globally recognized strategic partner.

We have established over **190 international agreements** with leading institutions across the Americas, Europe, Asia, and Oceania. These partnerships allow our students to complete a semester abroad through international exchange programs at renowned partner universities.

In addition, students can participate in international learning experiences while in Peru through **mirror classes** offered in collaboration with faculty at partner institutions and through collaborative projects with students at universities around the world as part of the **COIL** (Collaborative Online International Learning) programs.

They also have the opportunity to join **short term academic trips** abroad to enhance their knowledge in their field of study.

Universidad de Lima also offers students the opportunity to earn a **second international bachelor's degree** from renowned partner universities and strengthen the competencies needed to excel in a global environment.

Students seeking a more specialized academic path may complete two degrees in a minimum of five years: an undergraduate degree at Universidad de Lima and a **master's degree** at a renowned international partner university within a global academic environment.

In partnership with **Montclair State University and Disney International Programs**, Universidad de Lima offers an academic exchange and internship program that combines academic learning with preprofessional experience at Walt Disney World Resort—one of the world's most recognized destinations.

Universidad de Lima also offers **Summer Programs** that allow students to enroll in short term courses and experience academic life at renowned partner institutions abroad. These initiatives support professional development, broaden global perspectives, and foster intercultural competencies, international connections, and exposure to innovative learning approaches within an international academic environment.

¹ IQS School of Management is ranked 21st in the QS World University Rankings by Subject 2021: Business & Management Studies.

INTERNATIONAL SECOND DEGREE

WE OFFER OPTIONAL SECOND BACHELOR'S DEGREE PROGRAMS THAT WILL ALLOW YOU TO GROW IN GLOBAL ENVIRONMENTS.

UNIVERSITY OF LONDON (UNITED KINGDOM)

Aimed at students across all academic programs, this opportunity allows participants to earn a second degree: a Bachelor in Business Administration with pathways in Marketing, Human Resource Management, or International Business, either while remaining in Peru or by completing the final year of study in England.

Aimed at students in Systems Engineering, Civil Engineering, and Mechatronics Engineering, this program allows participants to complete three academic terms and earn a second international degree: a Bachelor in Artificial Intelligence.

THE UNIVERSITY OF QUEENSLAND (AUSTRALIA)

Aimed at students from Management, Accounting and Finance, Economics, Marketing, and International Business, this program enables them to spend one to one and a half years at a partner university and earn a second bachelor's degree in Business Management, Commerce, or Economics.

ESC CLERMONT (FRANCE)

Aimed at students in Management, Accounting and Finance, Economics, Marketing, and International Business, this program offers a one-year academic experience at ESC Clermont Business School. Upon graduation from Universidad de Lima, students may also earn a second bachelor's degree: the Bachelor in International Management.

UNIVERSITAT ABAT OLIBA CEU (SPAIN)

Aimed at students in the School of Psychology, this program offers a one-year academic experience at Universitat Abat Oliba CEU and the opportunity to earn a second bachelor's degree in Psychology. Students may also pursue a specialization in clinical or educational psychology.

Aimed at students in the School of Communication, this program offers a one-year academic experience at Universitat Abat Oliba CEU and the opportunity to earn, in addition to a Bachelor's Degree in Communication from Universidad de Lima, a degree in Journalism or Advertising and Public Relations awarded by the Spanish institution.

Both programs include specialized coursework, professional internships, and a final degree project.

IE UNIVERSITY (SPAIN)

Aimed at students in the final years of the Architecture program and recent graduates who completed their studies within the past two years. This program requires a minimum of four and a half years of study at Universidad de Lima followed by an additional year and a half at IE University. In addition to the degree awarded by Universidad de Lima, participants may earn a Bachelor in Architecture and a Master in Architecture, which provides eligibility for professional practice across the European Union.

Aimed at students in the final years of the Law program and recent graduates who completed their studies within the past two years. This program requires a minimum of five and a half years of study at Universidad de Lima followed by an additional two and a half years at IE University. In addition to the degree awarded by Universidad de Lima, participants may earn a Bachelor in Law and the Dual Master's Degree in Advocacy and Legal Representation + Master of Laws (LL.M.) from IE University, granting eligibility to take the professional licensing examination in Spain.

UNIVERSIDAD DE HUELVA (SPAIN)

Aimed at students of the Systems Engineering Undergraduate Program: You can study at this institution for a year and obtain a second bachelor's degree in Systems Engineering, with a major in Software Engineering, granted by Universidad de Huelva's Higher Technical School of Engineering.

NANTES UNIVERSITÉ (FRANCE)

Aimed at students from Industrial Engineering and Civil Engineering, this program allows participants to complete modules taught by faculty from the French institution during three academic break periods while continuing their regular studies at Universidad de Lima.

Depending on their program of study, students will also earn the following degree in addition to the bachelor's degree awarded by Universidad de Lima:

Industrial Engineering: University Bachelor's Degree in Quality Technology, Industrial Logistics, and Organization, specializing in Digital Transformation Management.

Civil Engineering: University Bachelor's Degree in Civil Engineering Technology and Sustainable Construction, specializing in Building Construction.

CONSECUTIVE MASTER

OUR OPTIONAL CONSECUTIVE MASTER'S PROGRAMS ENABLE STUDENTS TO ENHANCE THEIR PROFESSIONAL SKILLS AND EXCEL IN INTERNATIONAL ENVIRONMENTS.

RENNES SCHOOL OF BUSINESS (FRANCE)

Aimed at students and graduates from Management, Accounting and Finance, Marketing, International Business, Economics, Law, Communication, Industrial Engineering, and Systems Engineering who have graduated within the past two years. This program combines four years at Universidad de Lima with one year in France to earn one of the following master's degrees: Geopolitics and Business, Luxury Marketing and Brand Management, Data and Business Analytics, International Finance, Digital Marketing Management, Logistics, Supply Chain and Purchasing, Financial Data Intelligence, International Accounting, Management Control and Auditing, or International Negotiation and Business Development.

EXCELIA GROUP (FRANCE)

Aimed at students and graduates from Management, Accounting and Finance, Marketing, International Business, and Economics who have graduated within the past two years and may pursue master's programs through the following two options:

Master in Management (4+2 model): Combines a minimum of four years of undergraduate studies at Universidad de Lima with two years of master studies at Excelia Group.

Master of Science (MSc) (4+1 model): Combines a minimum of four years of undergraduate studies at Universidad de Lima with one year of master studies at Excelia Group.

ADVANTERE SCHOOL OF MANAGEMENT (SPAIN)

Aimed at students and graduates from Management, Accounting and Finance, Marketing, International Business, Economics, Psychology, Industrial Engineering, and Systems Engineering who have graduated within the past two years. This program combines four years at Universidad de Lima with one year in Spain to earn a Master in International Management, Master in Finance, Master in Talent Management, Master in Strategic Marketing and Communications, or Master in Real Estate Finance.

INCAE BUSINESS SCHOOL (COSTA RICA)

Aimed at students and graduates from Management, Accounting and Finance, Marketing, International Business, Economics, Industrial Engineering, and Systems Engineering who have graduated within the past five years. This program combines four years at Universidad de Lima with one year in Costa Rica to earn a Master in Management, Innovation & Technology.

UNIVERSITY OF CINCINNATI (UNITED STATES)

Aimed at students in the Law program, this opportunity offers a one-year academic experience in the United States leading to an LL.M. (Master of Laws) in U.S. Legal System while enhancing their professional profiles and global legal perspectives.

DUKE'S FUQUA SCHOOL OF BUSINESS (UNITED STATES)

Aimed at students and graduates from Management, Accounting and Finance, Marketing, International Business, Industrial Engineering, Systems Engineering, and Environmental Engineering who have graduated within the past two years. This program combines four years at Universidad de Lima with one year in the United States to earn a Master in Management Studies (MMS) or a Master in Quantitative Management (MQM).

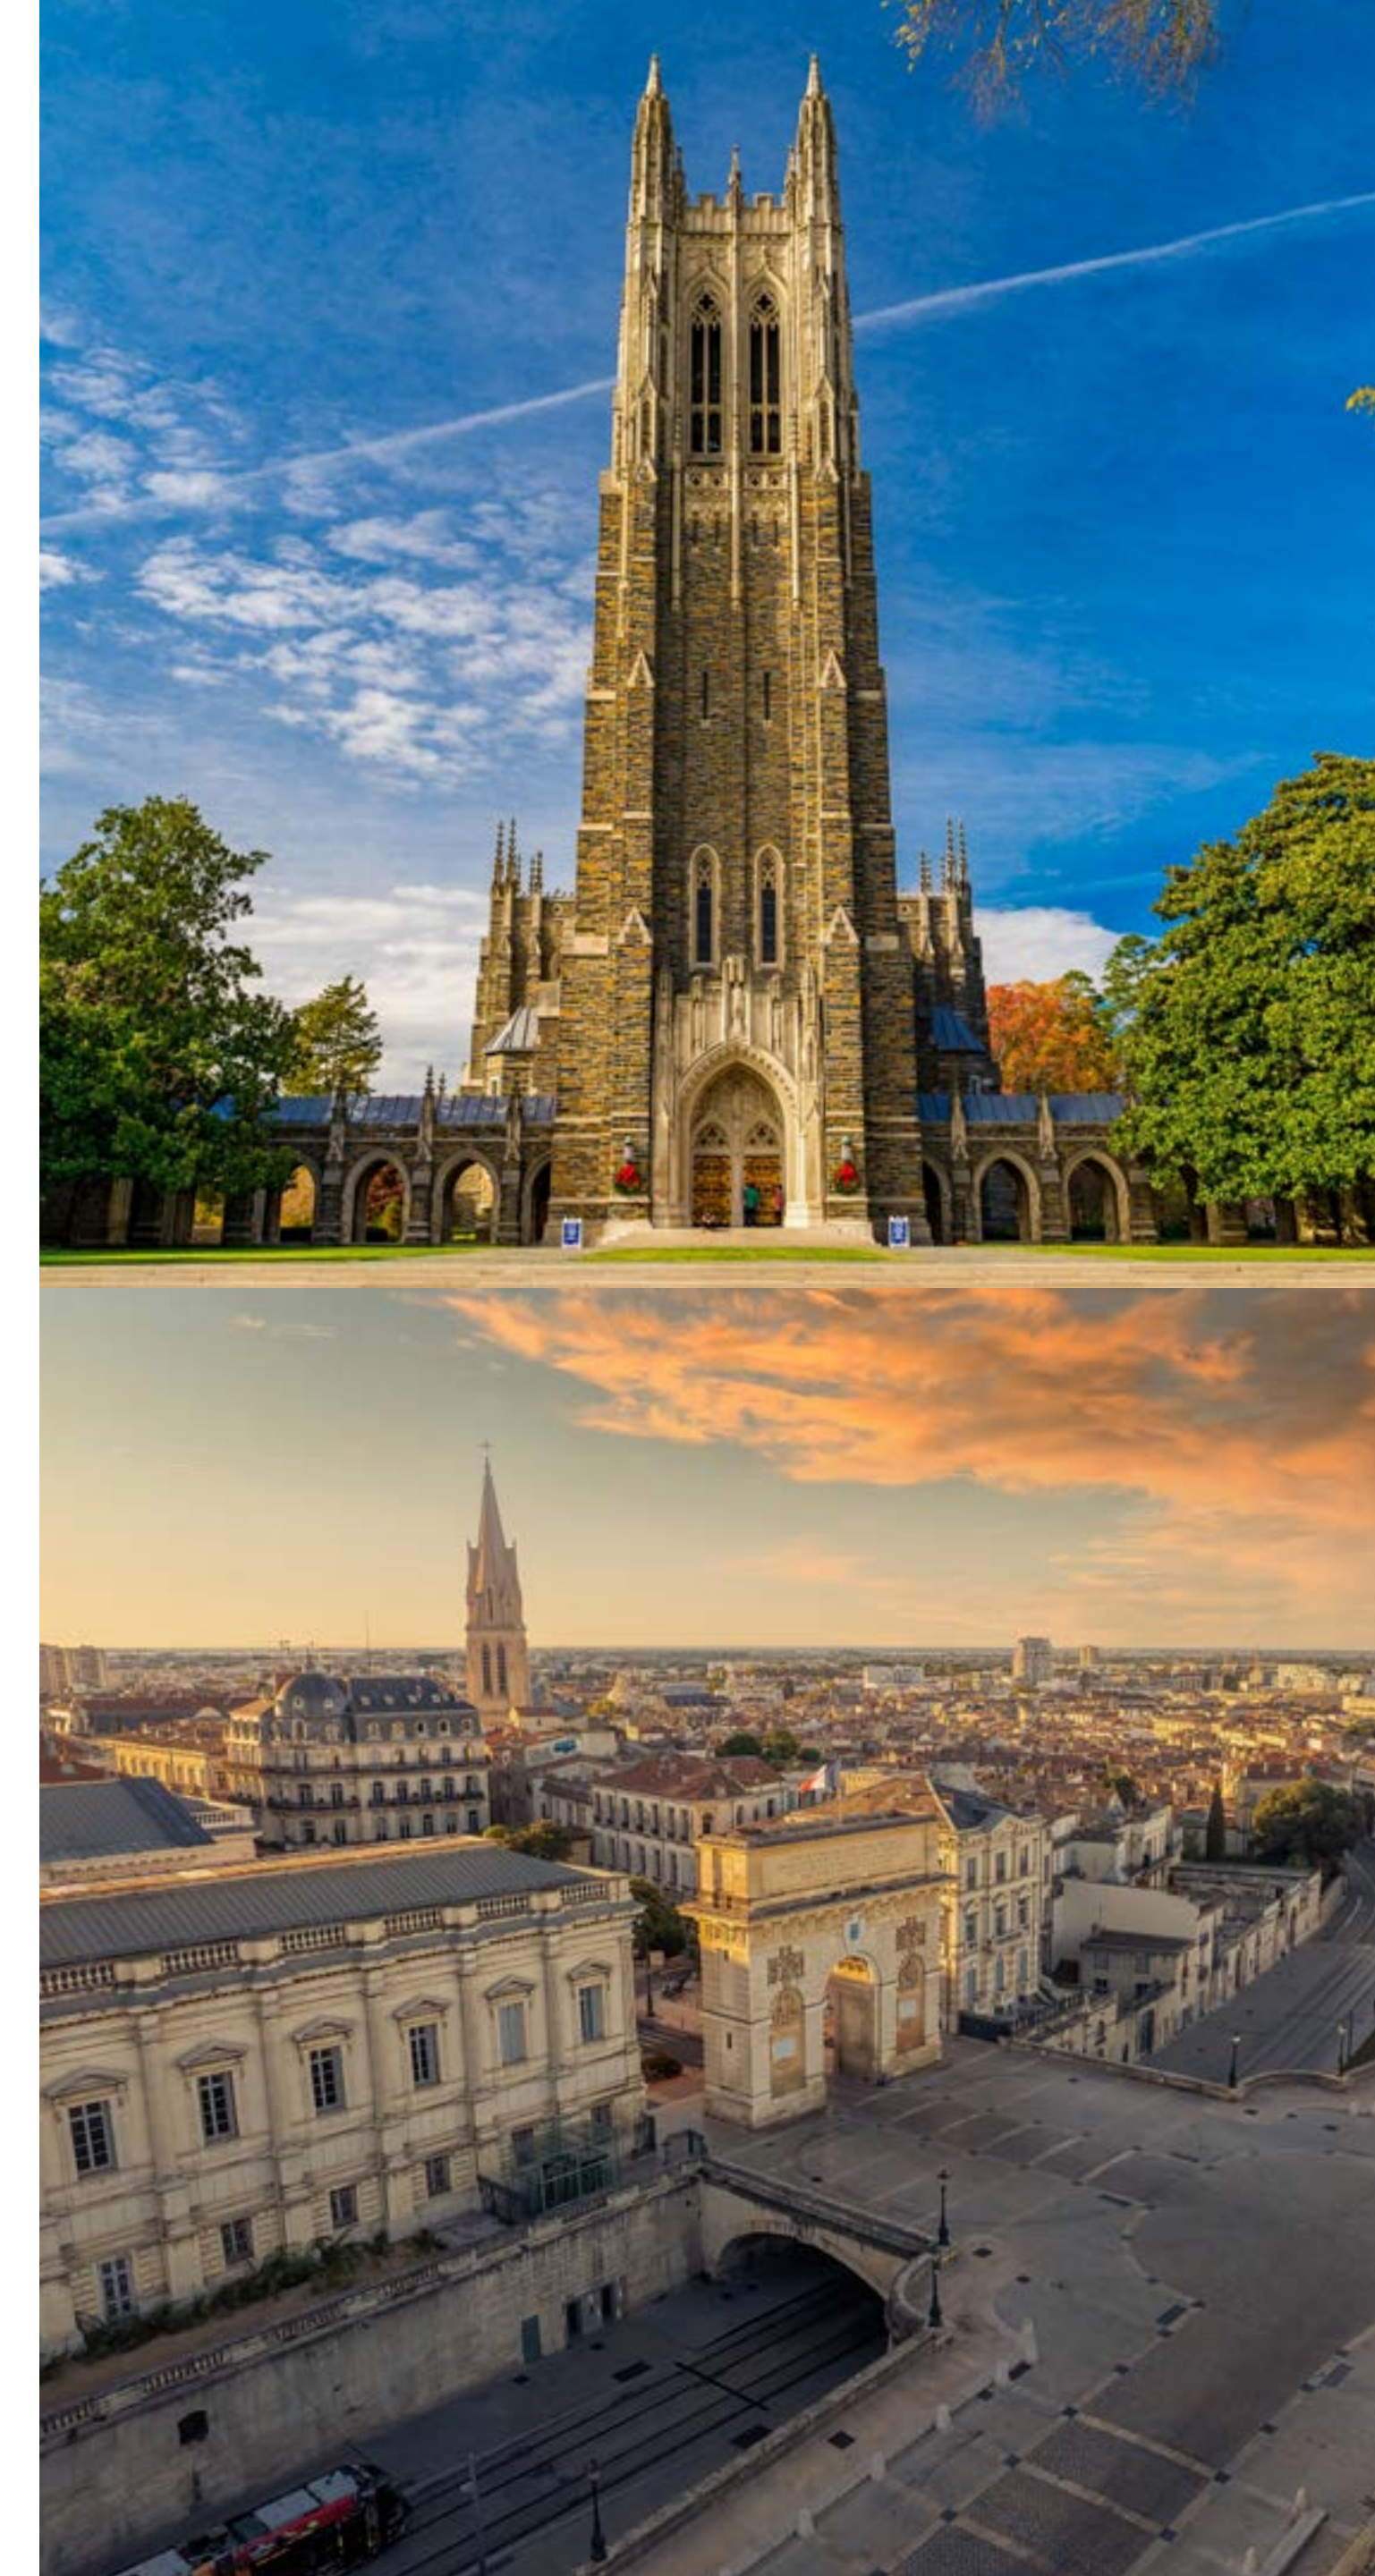

IE UNIVERSITY (SPAIN)

Aimed at students from Architecture and Law. Architecture students may complete five years at Universidad de Lima plus one and a half years in Spain to earn a Bachelor in Architecture and a Master in Architecture (MArch). Law students can pursue six years at Universidad de Lima and two and a half years in Spain to obtain a Bachelor of Laws and a dual Master's in Legal Practice and LL.M., enabling professional practice in Spain.

UNIVERSITÉ JEAN MOULIN LYON III (FRANCE)

Aimed at students in the Law program, who will have the opportunity to broaden their academic education by completing one year of studies in France to obtain an LL.M. (Master of Laws) degree. This experience will allow them to strengthen their professional profile and develop an international perspective on law.

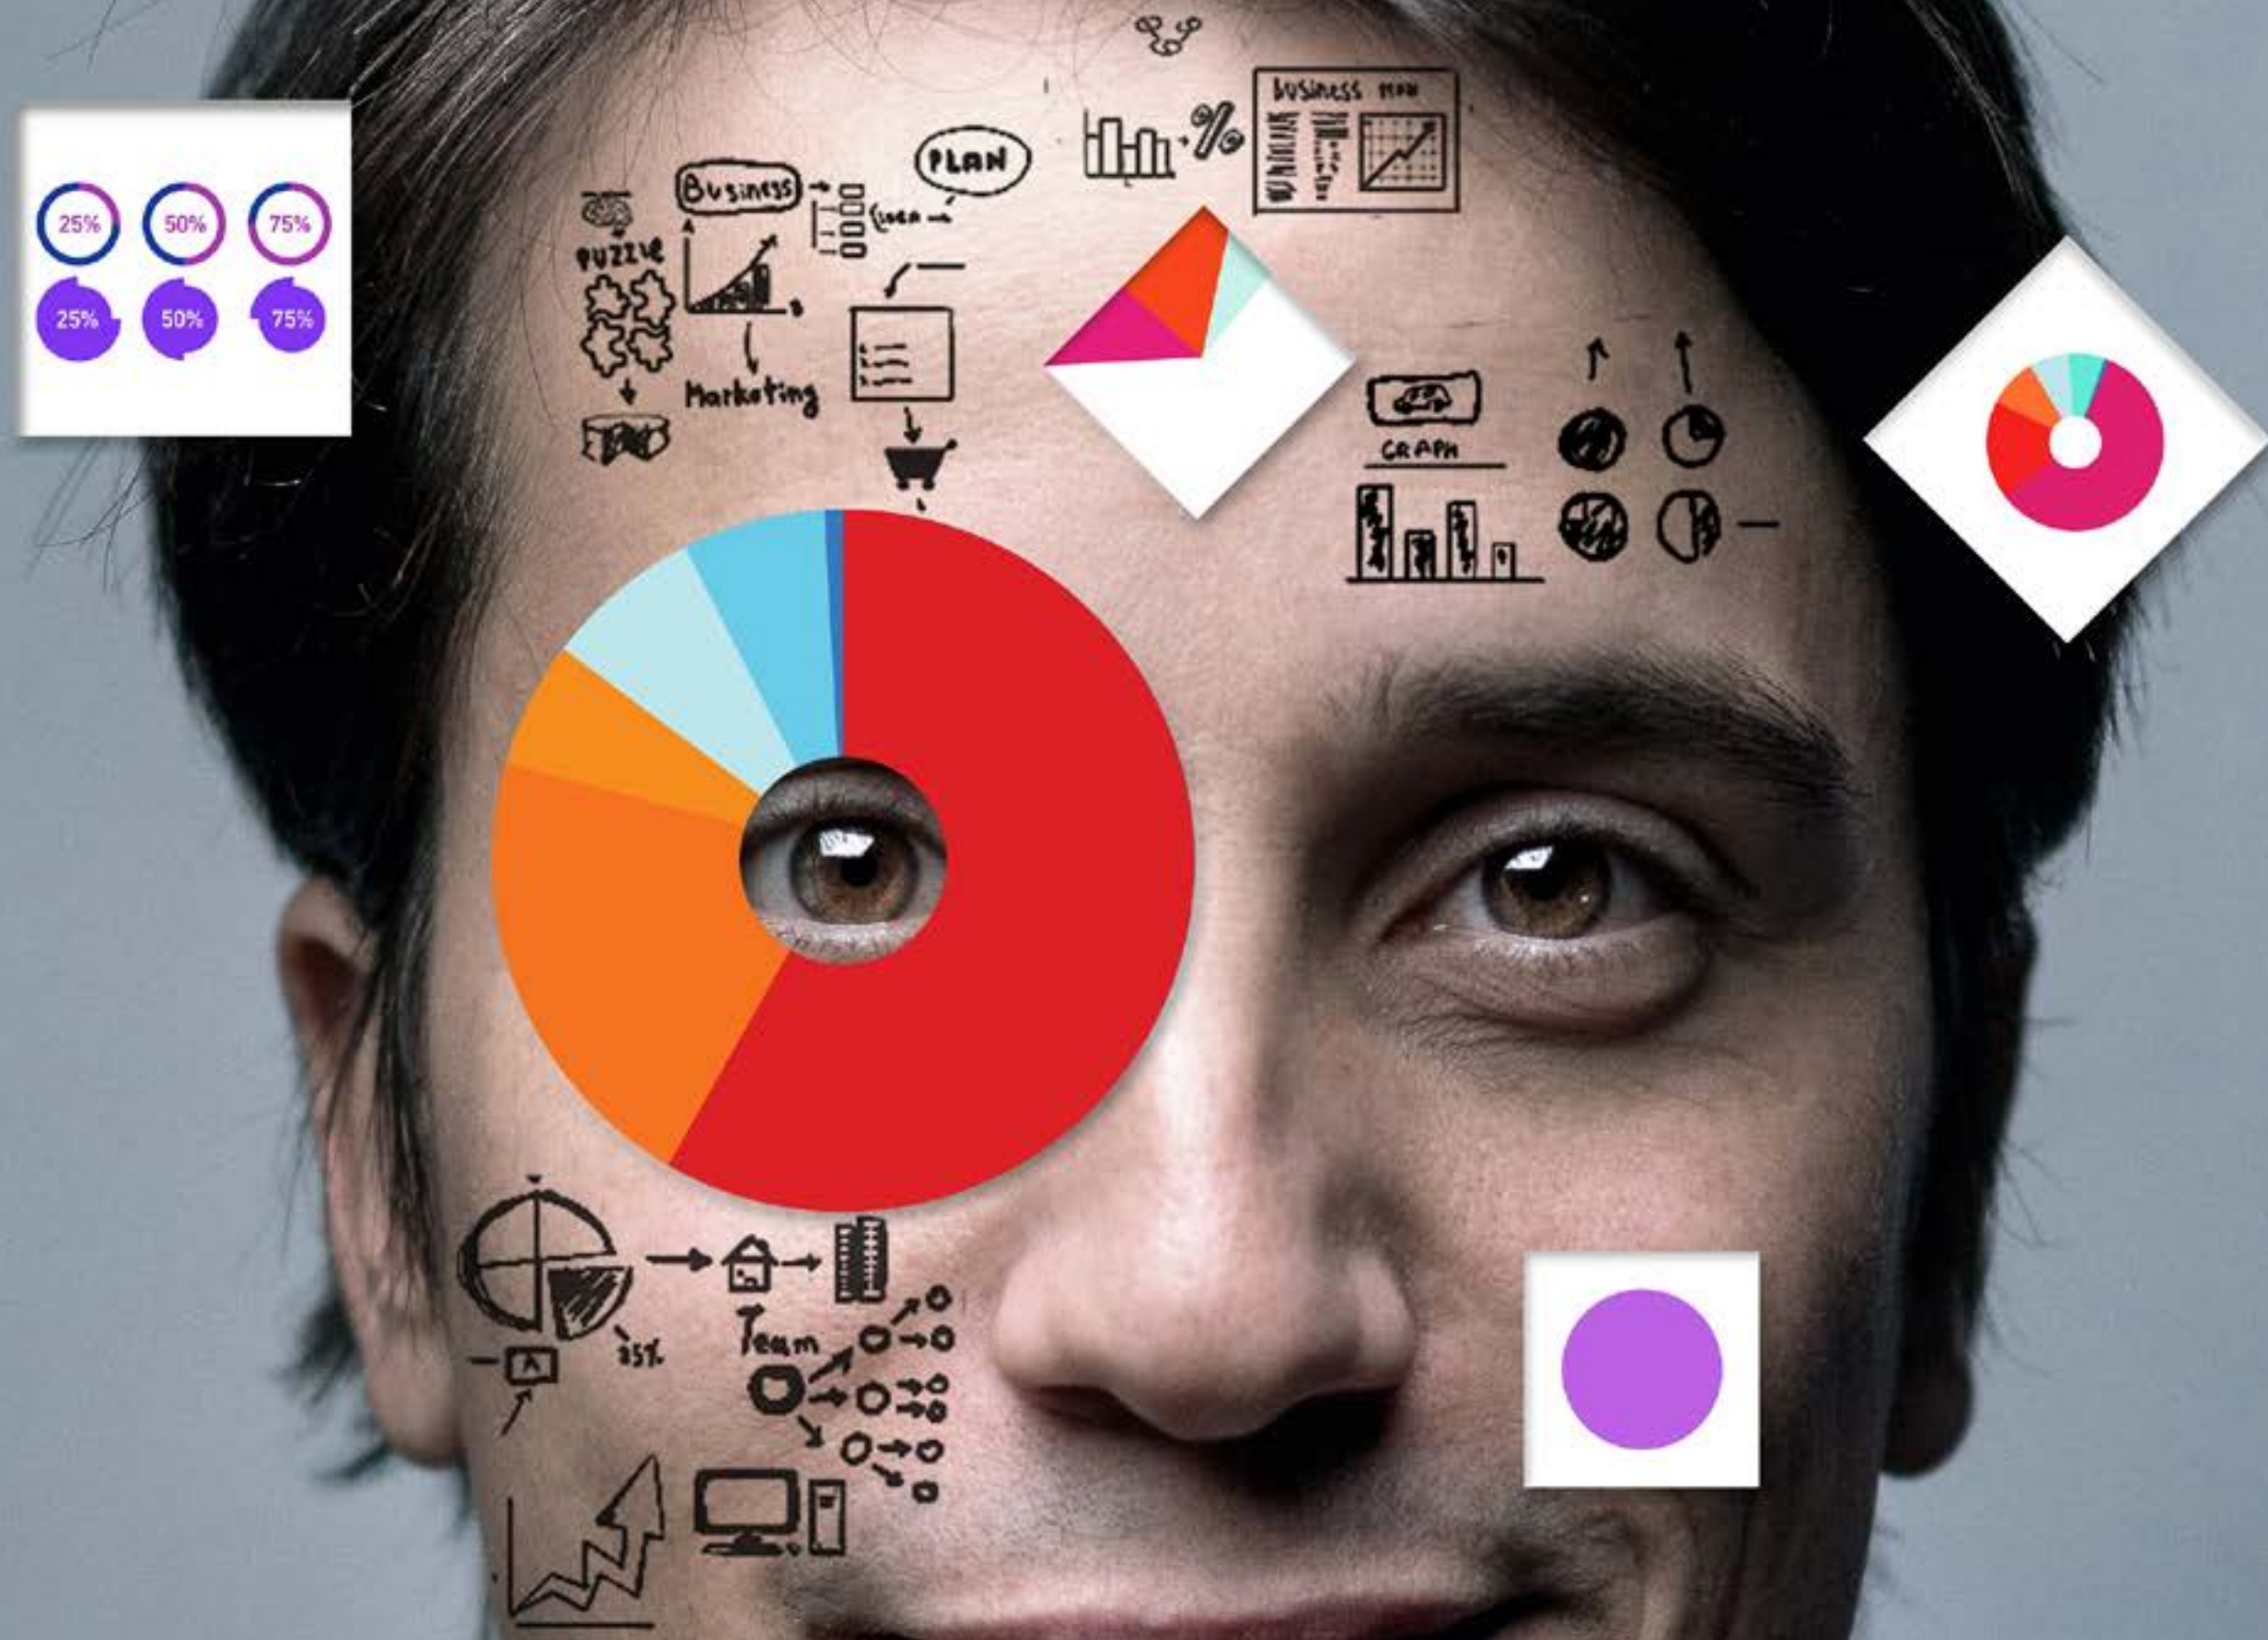

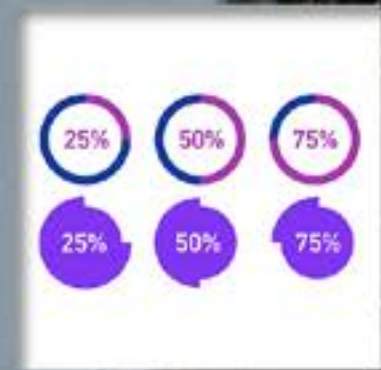

UNDERGRADUATE PROGRAMS

THE CURRICULA AT UNIVERSIDAD DE LIMA ARE DESIGNED TO TRAIN UPRIGHT PROFESSIONALS CAPABLE OF LEADING COMPANIES AND STARTUPS.

In addition, our students have the possibility of developing specializations through elective subjects offered in our curricula.

Likewise, our programs are accredited by the International Institute for Quality Assurance (IAC-CINDA), which guarantees the excellence of Ulima's educational process at an international level.

MANAGEMENT

RUN, START AND PLAN BUSINESSES

THE WORLD NEEDS MANAGERS WHO USE RESOURCES TO MAXIMIZE THE VALUE OF ORGANIZATIONS.

YOU WILL TURN YOUR IDEAS INTO BUSINESS.

You will identify and capitalize opportunities in the global and local environment by making sound decisions to achieve objectives.

YOU WILL GENERATE A POSITIVE IMPACT ON DIFFERENT STAKEHOLDERS.

You will diagnose and implement innovative solutions to complex situations that arise in organizations.

WHY MANAGEMENT AT UNIVERSIDAD DE LIMA?

- It ranks among the top three most in-demand professions nationwide,¹ offering opportunities across a variety of roles and standing out as one of the highest-paying careers in Peru².
- Ulima is the university that produces most CEOs and general managers nationwide³.
- Our managers hold senior positions in areas such as finance, people management, marketing, operations and logistics, and general management.
- Ranked first place among the best prepared graduates to work in the marketing, commercial and sales areas².

- Our graduates are among the highest paid nationally⁴.
- They are also among the best management graduates, according to the employers' perception².
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to get a second bachelor's degree from renowned universities in the United Kingdom, Australia or France.
- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Excevia Group (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica), and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

ARCHITECTURE

—
TURN YOUR IDEAS INTO
SPACES

THE WORLD NEEDS ARCHITECTS WHO USE THEIR CREATIVITY TO PLAN SUSTAINABLE SPACES THAT HAVE A POSITIVE IMPACT ON THE SOCIETY.

YOU WILL CREATE SUSTAINABLE CITIES.

You will take subjects and workshops that will introduce you to the most important concepts of urbanism, so that you can then design spaces keeping the community and its inhabitants in mind.

YOU WILL MANAGE PROJECTS.

Your ability to plan, design and execute construction works will place you at the head of different architectural projects that you will be able to manage throughout all their stages.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Interior Architecture
- Built Heritage Conservation
- Sustainable Building
- Urban Planning and the Environment

WHY ARCHITECTURE AT ULIMA?

- The program has been granted a double accreditation by the Royal Institute of British Architects (RIBA), being Universidad de Lima the first Peruvian university to receive this recognition.
- It ranks among the top 10 most in-demand careers in the country¹.
- You will experience the profession from the first academic term.
- You will take subjects in which you will work with fellow students from all the academic terms. This will serve you as a stimulus to expand your knowledge.
- We offer academic exchange programs with the world's leading architecture schools and a second bachelor's degree program with the University of London (United Kingdom) and IE University (Spain).
- In addition, students have access to consecutive master's programs with IE University (Spain), providing the opportunity to continue their academic education through an international master's degree.

- You will be able to attend various conferences and exhibitions and participate in national and international architectural design competitions.
- La Biennale di Venezia: Since 2012, students and professors represent Ulima at the most important event in the world of architecture.

SPACES

The Architecture Program has the following spaces for work, study and research:

- Design workshops
- Modeling workshops
- Model storeroom
- Drawing classrooms
- Building Laboratory
- Academic Projects Office

COMMUNICATION

VERSATILE COMMUNICATORS WHO
LEAD INNOVATIVE PROCESSES

THE WORLD NEEDS COMMUNICATORS WHO PLAN AND MANAGE COMMUNICATION PROJECTS AND DEVELOP INNOVATIVE PRODUCTS.

YOU WILL BE A VERSATILE COMMUNICATOR.

You will be qualified to work in advertising, graphic design and photography, video games and applications, journalism, audiovisual production, media and digital marketing, corporate image, internal communication, social development, among other fields.

YOU WILL CREATE INNOVATIVE CONTENT.

You will be trained in spaces equipped with the tools you will use when you start working. Your experience will allow you to organize and manage innovative communication products on any platform.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Animation and Video Games
- Corporate Communication
- Communication for Development
- Photography and Design
- Audiovisual Management and Production
- Journalism and Information Management
- Advertising and Marketing

WHY COMMUNICATION AT ULIMA?

- Our Communication Undergraduate Program was the first in the country. For 50 years, we have been training versatile communicators who create innovative products and content for different platforms.
- Communication stands among the professions with the greatest growth potential. According to employers' perception,¹ our graduates rank as the best prepared in the field and among the highest paid nationwide².
- Our curriculum is flexible and allows students to choose freely among seven specialties.
- You will have access to international experiences through more than 190 exchange agreements. In addition, you may pursue a second bachelor's degree with University of London (United Kingdom) or Universitat Abat Oliba CEU (Spain).
- In addition, students have access to consecutive master's programs with Rennes School of Business (France) and Advantere School of Management (Spain), providing the opportunity to continue their academic education through an international master's degree.

PUBLICATIONS

- *Contratexto*: A journal aimed at academics, researchers and professionals in the fields of communications, social sciences and humanities. Furthermore, it is indexed in different databases such as Scopus.

- *Ventana Indiscreta*: Each edition addresses a current topic of local and world movie making. The country's most important film critics, as well as numerous foreign collaborators, contribute with articles, essays and interviews that explore different aspects of the seventh art today.
- *Nexos*: A newspaper and digital platform developed by students of the Journalism Area of the program.

SPACES

We have state-of-the-art facilities and technology that allow the training of our students in situations such as those they will face in their working life.

These are some of our diverse spaces:

- Visual arts, video game development and journalism laboratories
- Three TV studios
- Four sound booths
- *Ventana Indiscreta* movie theater
- Fifteen video editing and post-production rooms
- Two digital photography laboratories and photographic studios
- Audiovisual archive with more than 5000 titles and viewing rooms
- One focus group room

ACCOUNTING AND FINANCE

—
MANAGE AND OPTIMIZE
A COMPANY'S FINANCIAL
HEALTH

THE WORLD NEEDS ACCOUNTANTS WHO USE THEIR TALENT AND EFFICIENCY TO ANALYZE FINANCIAL INFORMATION AND MAKE SOUND DECISIONS.

YOU WILL GUIDE BUSINESS DECISIONS.

Your training in management, design and interpretation of financial information will give you the ability to define strategies that will benefit your company's development.

YOU WILL OPTIMIZE YOUR COMPANY'S FINANCIAL HEALTH.

You will participate in business decision-making. To do so, you will learn to perform financial analysis and control, master tax issues and apply current international standards.

WHY ACCOUNTING AND FINANCE AT ULIMA?

- Top 10 most employable degrees in the country¹.
- Ulima is the university that produces most CEOs and general managers nationwide².
- Top ranked among the highest paid graduates nationally³.
- Our accountants are among the best accounting graduates and among the best prepared to work in the finance area, according to the employers' perception⁴.

- You will be recruited by leading auditing firms, corporations and large global companies such as PwC, EY, KPMG, Deloitte, among others.

- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to get a second bachelor's degree from renowned universities in the United Kingdom, Australia or France.

- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Excelia Group (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica), and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

We have an **Accounting and Tax Support Center**, in alliance with the National Superintendency of Customs and Tax Administration (SUNAT). In this center, students advise, free of charge and on a voluntary basis, small taxpayers and micro-entrepreneurs on various tax and customs issues.

Unique in Latin America, our **Stock Market Laboratory**, part of the Economic, Financial and Social Observatory, provides students with specialized tools and software currently available in the national and international capital market.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Financial Auditing
- Finance
- Taxation

LAW

—
MANAGE SOCIETY, BUSINESS
AND WORLD RULES

THE WORLD NEEDS LAWYERS WHO RESOLVE CONFLICTS, RECONCILE OPPOSING VIEWS AND FIND ETHICAL AND EFFECTIVE SOLUTIONS.

YOU WILL REACH AGREEMENTS AND CONCILIATIONS.

You will study real cases and master the legal frameworks that will facilitate the solution of disputes and legal issues within an organization.

YOU WILL GUIDE COMPANIES FROM A LEGAL PERSPECTIVE.

You will understand the rules of the game. You will be trained with a curriculum that will allow you to specialize in business law while giving you the administrative and financial tools you need.

WHY LAW AT ULIMA?

- Law is among the highest paid professions in the country¹.
- Our lawyers have solid legal knowledge and ethical principles.
- We have a current and innovative curriculum that incorporates new trends in law and offers constantly updated elective subjects.
- Our professors are professionally recognized experts in their area of expertise.
- Ulima lawyers are among the best law graduates, according to the employers' perception¹, and among the highest paid nationally². In addition, they rank first in five practice areas in Peru, according to Best Lawyers' rankings³.

- You will work in leading law firms as well as public and private entities in the country.
- The program holds international accreditation from the Consejo para la Acreditación de la Enseñanza del Derecho (CONAED), recognizing its academic excellence and compliance with rigorous educational standards. This accreditation is granted for a five-year term.
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to participate in a second bachelor's degree program with the University of London (United Kingdom) and IE University (Spain).
- In addition, students have access to consecutive master's programs with Rennes School of Business (France), IE University (Spain), Université Jean Moulin Lyon III (France), and University of Cincinnati (United States), providing the opportunity to continue their academic education through an international master's degree.

SOCIAL RESPONSIBILITY

The senior students of the School of Law—supervised by a professor—provide legal advice on family matters at the **Free Legal Advice Clinic**, located in Pamplona Alta, San Juan de Miraflores district.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Corporate Law
- Dispute Resolution
- Administrative and Regulatory Law
- Competition and Intellectual Property Law

PUBLICATIONS

Our students are involved in the editorial process and the creation of content of interest on law:

- *Ius et Praxis*
- *Advocatus*
- *Athina*
- *Lima Law Review*

ECONOMICS

OPTIMIZE RESOURCES FOR
ACHIEVING A BETTER SOCIETY

THE WORLD NEEDS ECONOMISTS WHO EFFECTIVELY USE RESOURCES IN THE PUBLIC AND PRIVATE SECTORS AND ANALYZE DOMESTIC AND INTERNATIONAL MARKET DYNAMICS.

YOU WILL MANAGE AND DECIDE ON INVESTMENTS.

Your banking and finance knowledge will make you the professional every organization needs to ensure the viability of its investments and make them a reality.

YOU WILL INFLUENCE THE NATIONAL ECONOMY.

You will understand the concepts that move markets. You will be able to work in the public sector and develop policies that ensure the country's economic growth.

WHY ECONOMICS AT ULIMA?

- Economics is one of the most in-demand professions and one of the highest paid in Peru¹.

- Ulima is the university that produces most CEOs and general managers nationwide².

- Our economists are ranked among the highest paid graduates in the country² and are considered among the best economics graduates, according to the employers' perception¹.

- As the first undergraduate program in Peru affiliated with the CFA Institute University Affiliation Program, we support our students in pursuing the Chartered Financial Analyst (CFA) certification, strengthening their competitiveness in international markets.

- You will constantly participate in talks, conferences and visits to prestigious institutions such as the Lima Chamber of Commerce (CCL) and the Central Reserve Bank of Peru (BCRP).

- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to get a second bachelor's degree from renowned universities in the United Kingdom, Australia or France.

- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Exceia Group (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica), and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

Unique in Latin America, our **Stock Market Laboratory**, part of the Economic, Financial and Social Observatory, provides students with specialized tools and software currently available in the national and international capital market.

In addition, Ulima has been designated as the sole certifying agency for the Superintendence of Securities Market (SMV).

PUBLICATION

- *Desafíos del Desarrollo Económico y Empresarial (Challenges of the Economic and Business Development)* is an open-access semiannual academic publication. Its objective is to disseminate the results of research in the economics and business areas.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Financial Theory and Stock Markets
- Investment Management
- Data Science Applied to Economics
- Economic Policy
- Economic and Financial Research

ENVIRONMENTAL ENGINEERING

—
CREATE INNOVATIVE
SOLUTIONS TO REDUCE
ENVIRONMENTAL IMPACT

THE WORLD NEEDS ENVIRONMENTAL ENGINEERS WHO LEAD THE WAY IN SUSTAINABILITY AND TRANSFORM PRODUCTION PROCESSES WITH ECO-FRIENDLY INNOVATIVE SOLUTIONS.

YOU WILL DRIVE SUSTAINABILITY IN PROCESSES.

You will design engineering systems to reduce environmental impact, creating a balance between economic growth and environmental conservation.

YOU WILL LEAD THE WAY IN ENVIRONMENTAL CHANGE.

You will become a key player in transforming environmental culture, integrating science and technology to create solutions for a sustainable future.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications..

By pursuing this program, you may specialize in the following areas:

- Conservation and Environmental Health
- Environmental Impact Assessment and Risk Management
- Environmental Management
- Technologies for Environmental Sustainability

WHY ENVIRONMENTAL ENGINEERING AT ULIMA?

- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to participate in an optional second bachelor's degree program with the University of London (United Kingdom).
- It ranks among the most in-demand careers in the country¹.
- Our engineering programs have national and international accreditations.
- Over 20 specialized laboratories to put theory into practice.
- Our environmental engineers are the best prepared for the workforce, according to employers' perceptions¹.
- Scientific production and environmental patents.
- Ulima is the university that produces most CEOs and general managers nationwide².
- In addition, students have access to consecutive master's programs with Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

We have over 17 cutting-edge laboratories where our students will complement their theoretical knowledge with hands-on experimental learning.

Some of them include:

- Artificial Intelligence
- Physics and Electrical Engineering
- Chemistry
- Microbiology
- Thermodynamics
- Environmental Engineering
- Environmental Biology*
- Environmental Chemistry*
- Analytical Instrumentation
- Air Quality*
- Water Quality*
- Soil Quality*
- Advanced Technologies in Pollutant Control Laboratory*
- Fluid Mechanics and Hydraulics
- Soil Science
- Simulation and Modeling
- Smart Factory
- Digital Fabrication Laboratory (Fab Lab)
- Renewable Energy
- Nanotechnology

* Implementation by 2026-1

CIVIL ENGINEERING

—
CREATE BUILDINGS THAT
WILL LAST OVER TIME

THE WORLD NEEDS CIVIL ENGINEERS WHO HAVE THE TALENT TO IMAGINE, CONCEIVE AND LEAD CONSTRUCTION PROJECTS.

YOU WILL LEAD CONSTRUCTION PROJECTS WITH PROFESSIONALISM.

You will be able to advise on the design of a structure from its virtual conception. You will know how to identify risks and anticipate any change. You will be the head that ensures the integration and efficiency of multidisciplinary teams.

YOU WILL BUILD RESISTANT STRUCTURES.

You will study subjects that will make you know the spaces and materials that you will use in the work field. This will allow you to guarantee the quality and safety of the constructions you manage and lead.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Structures
- Virtual Design and Construction
- Project Collaboration Management
- Transportation and Geotechnics

WHY CIVIL ENGINEERING AT ULIMA?

- Civil Engineering is one of the most in-demand professions in the country and among the highest paid nationwide. According to employers' perception¹, our graduates rank as the best prepared in the field.
- Our program is a pioneer in the country in the comprehensive implementation of the BIM² methodology in the curriculum, an essential requirement for the development of projects in an efficient and effective manner.
- We are the only institution in Latin America with an agreement with Stanford University's CIFE³, thanks to the agreement with the Stanford Center for Professional Development.
- Our study program has a business and international approach.
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to participate in a second bachelor's degree program with the University of London (United Kingdom) or Nantes Université (France).

PARTIAL CERTIFICATIONS

- 3D BIM
- 4D BIM
- 5D BIM

SPACES

Because of the importance we give to research, the Civil Engineering Undergraduate Program has several specialized laboratories where our students can deepen their knowledge in various topics. These are some of them:

- Structures
- Geotechnics
- Environmental Engineering
- Sanitary Engineering, Hydraulics and Hydrology
- Materials
- Fluid Mechanics
- Pavement
- Project Simulation
- Topography and Geomatics

² Building Information Modeling.

³ The Center for Integrated Facility Engineering is the world's leading research center for Virtual Design and Construction (VDC) of projects related to architecture, engineering and construction.

INDUSTRIAL ENGINEERING

DESIGN, INNOVATE AND CONDUCT
PRODUCTION PROCESSES
BY EFFICIENTLY MANAGING
ORGANIZATIONS

THE WORLD NEEDS INDUSTRIAL ENGINEERS WHO INNOVATE AND LEAD THE EVOLUTION OF PRODUCTION PROCESSES BY DEVELOPING A TECHNOLOGICAL VISION BASED ON SUSTAINABILITY AND BUSINESS COMPETITIVENESS.

YOU WILL TRANSFORM YOUR BUSINESS.

You will seek to improve the production processes of goods and services by creating efficient solutions that contribute to business competitiveness and profitability.

YOU WILL IMPROVE PROCESSES AND PRODUCTS.

You will be the professional that industries need to improve their processes. Your knowledge in diverse areas will allow you to be a versatile professional who implements new technologies in process management and product development.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Business Analytics
- Engineering Project Management
- Business Engineering
- Technological Innovation
- Supply Chain Management

WHY INDUSTRIAL ENGINEERING AT ULIMA?

- Industrial Engineering is one of the most in-demand professions in the country, with the greatest future projection and among the highest paid in Peru¹.
- Ulima is the university that produces most CEOs and general managers nationwide².
- Ulima has been training business leaders for more than 50 years through this program. In addition, it is accredited by ABET³, which guarantees the excellence of the academic proposal based on international standards.
- Our industrial engineers are the best industrial engineering graduates, according to the employers' perception¹, and are among the highest paid in the country⁴.
- Our graduates work in senior management positions in leading companies in the production, logistics, innovation, process transformation, sales, marketing, administration and finance areas, among others.
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to participate in a second bachelor's degree program with the University of London (United Kingdom) or Nantes Université (France).

- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica), and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

We have more than 15 equipped laboratories where our students will complement their theoretical knowledge in an experimental way and will research and create sustainable solutions. These are some of them:

- Functional Foods
- Quality Control
- Docimasia
- Digital Fabrication
- Electrical Engineering
- Flexible Manufacturing
- Machines and Instruments
- Industrial Chemistry
- Textile and Apparel Manufacturing

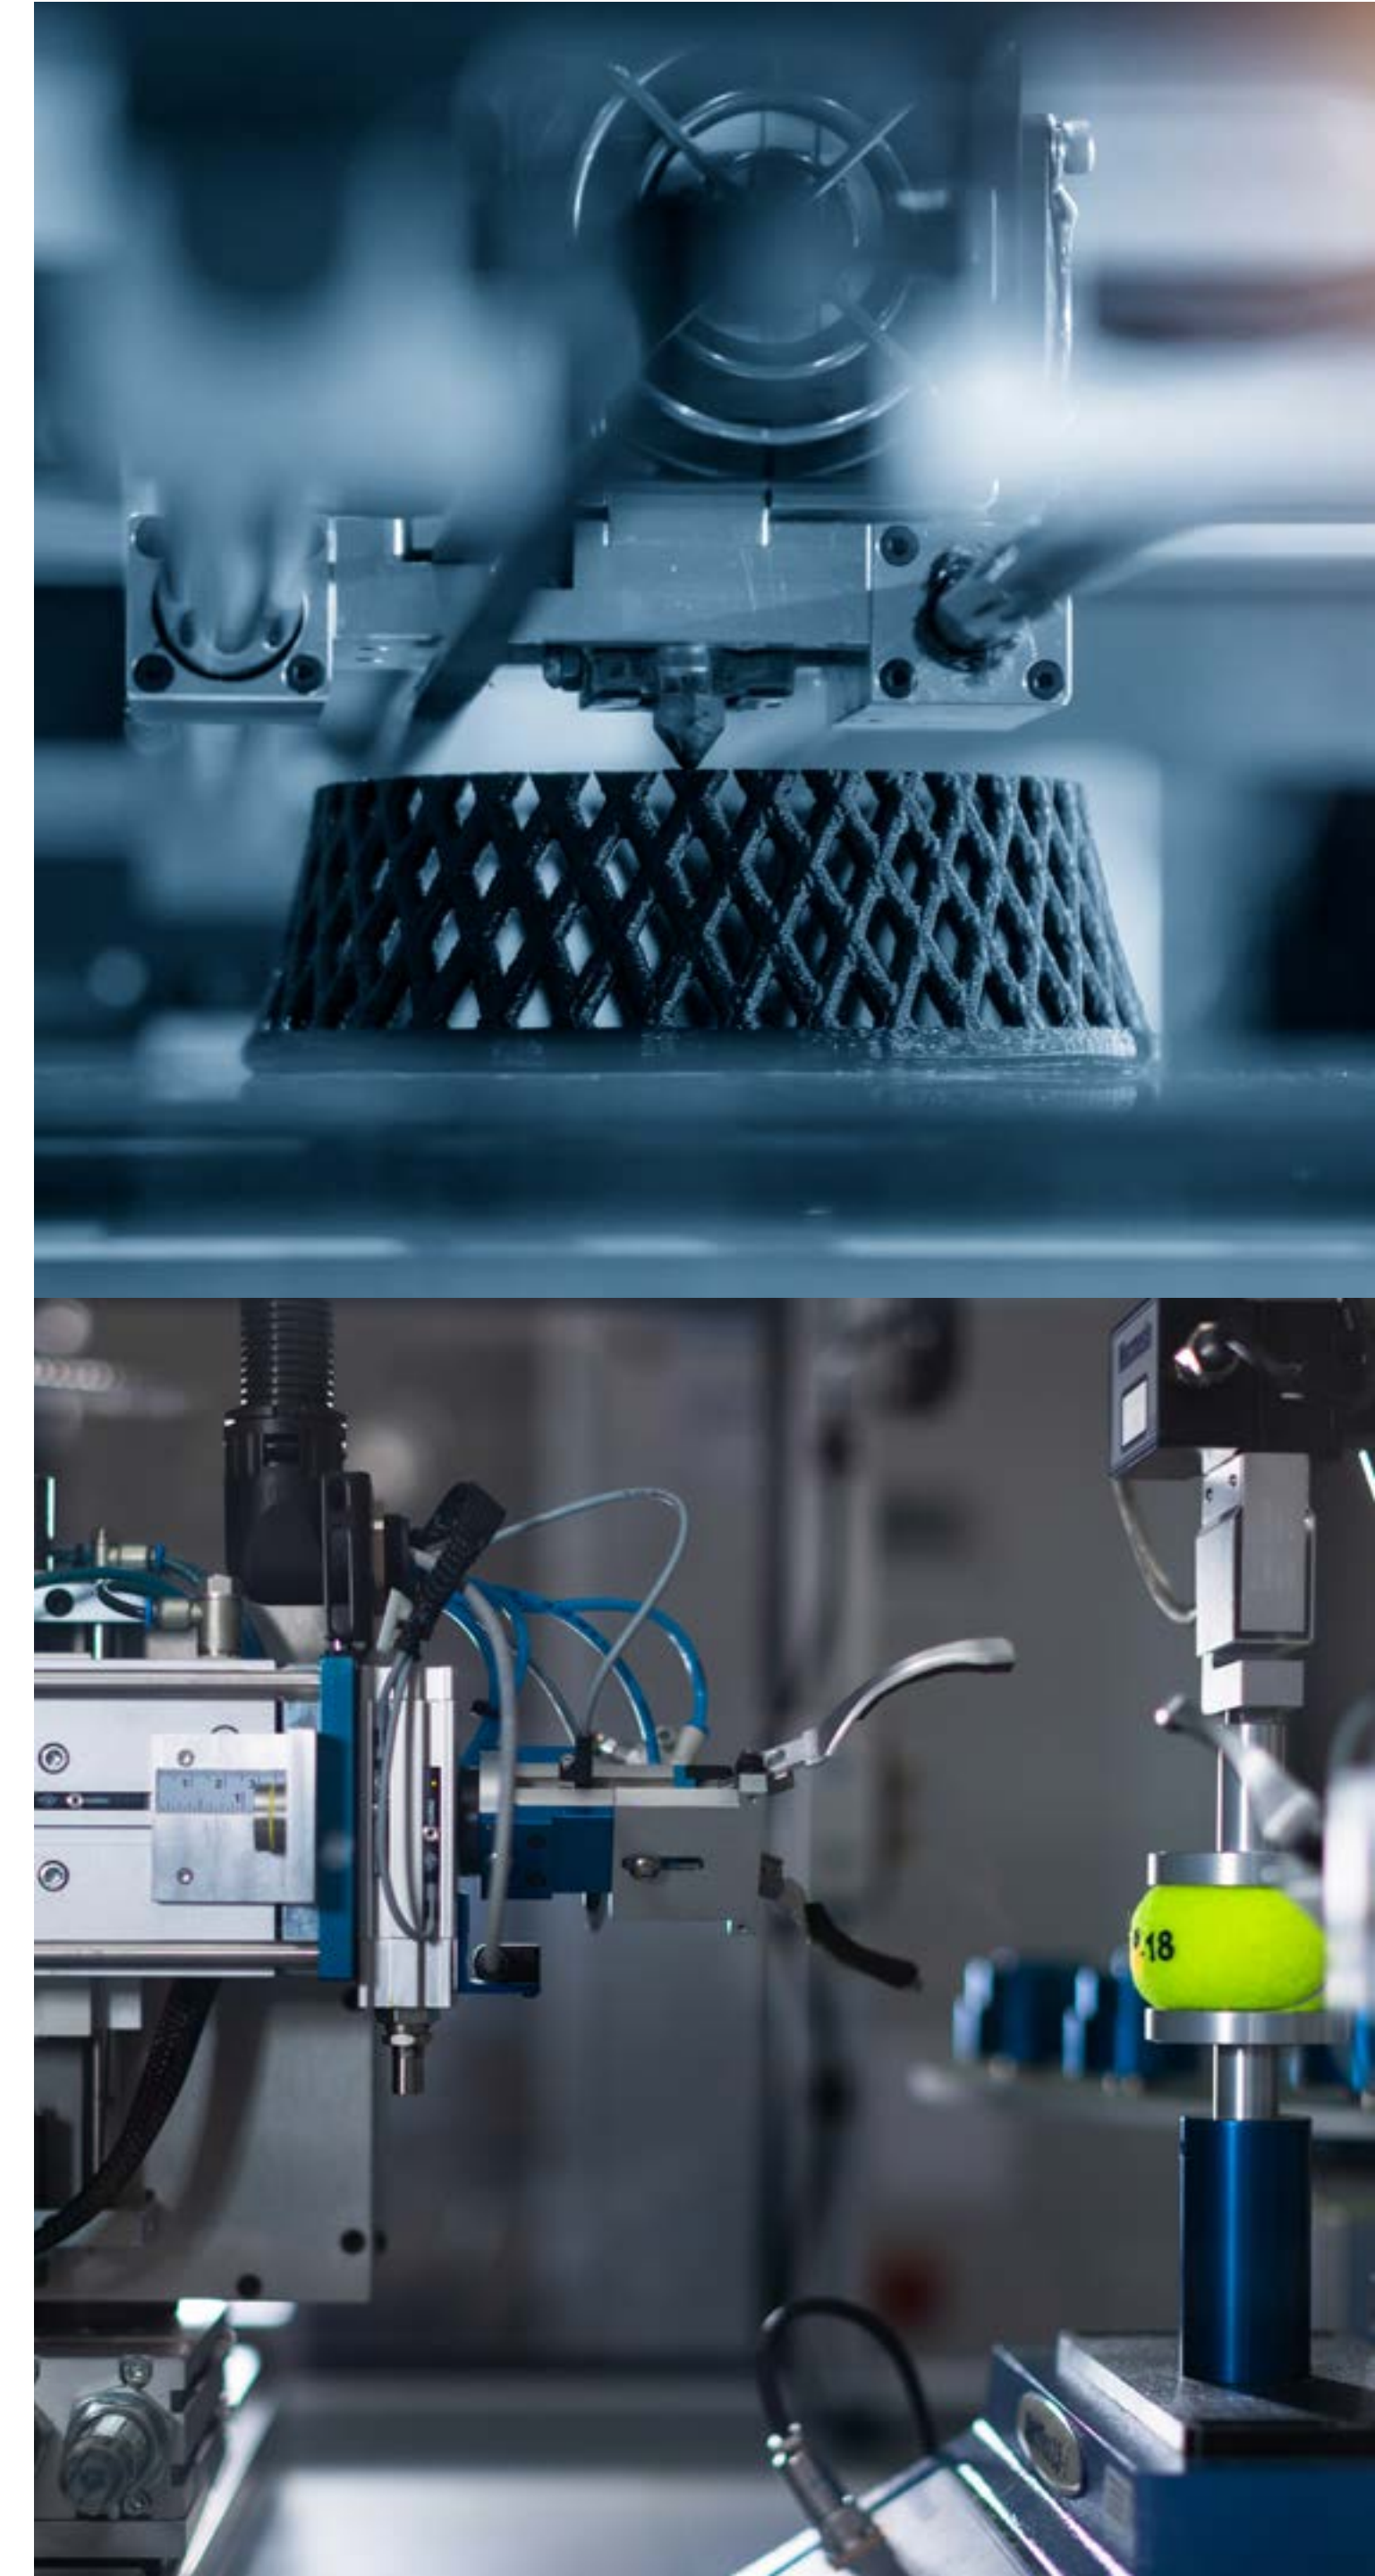

In addition, during the course of your studies, you will be supported by real-time virtual simulators.

MECHATRONICS ENGINEERING

LEAD THE TECHNOLOGICAL
REVOLUTION AND POWER
THE FUTURE OF INTELLIGENT
SYSTEMS

THE WORLD NEEDS MECHATRONICS ENGINEERS WHO TRANSFORM THE INDUSTRY BY INTEGRATING ROBOTICS, AUTOMATION, AND AI TO CREATE GROUNDBREAKING AND SUSTAINABLE SOLUTIONS.

YOU WILL INNOVATE AND AUTOMATE PROCESSES.

You will design and implement advanced automated systems to enhance competitiveness and efficiency in organizations.

YOU WILL TRANSFORM THE INDUSTRY.

You will be the driving force in combining mechanics, electronics, and control to push the boundaries of automation, robotics, and intelligent systems.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Industrial Automation and Robotics
- Technological Innovation
- Simulation and Cyber-Physical Systems

WHY MECHATRONICS ENGINEERING AT ULIMA?

- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to participate in an optional second bachelor's degree program with the University of London (United Kingdom).
- Our engineering programs have national and international accreditations..
- Over 17 specialized laboratories to put theory into practice.
- Our mechatronics engineers are the best prepared for the workforce, according to employers' perceptions¹.
- Scientific production and patents.
- Ulima is the university that produces most CEOs and general managers nationwide².

SPACES

We have over 17 cutting-edge laboratories where our students will complement their theoretical knowledge with hands-on experimental learning.

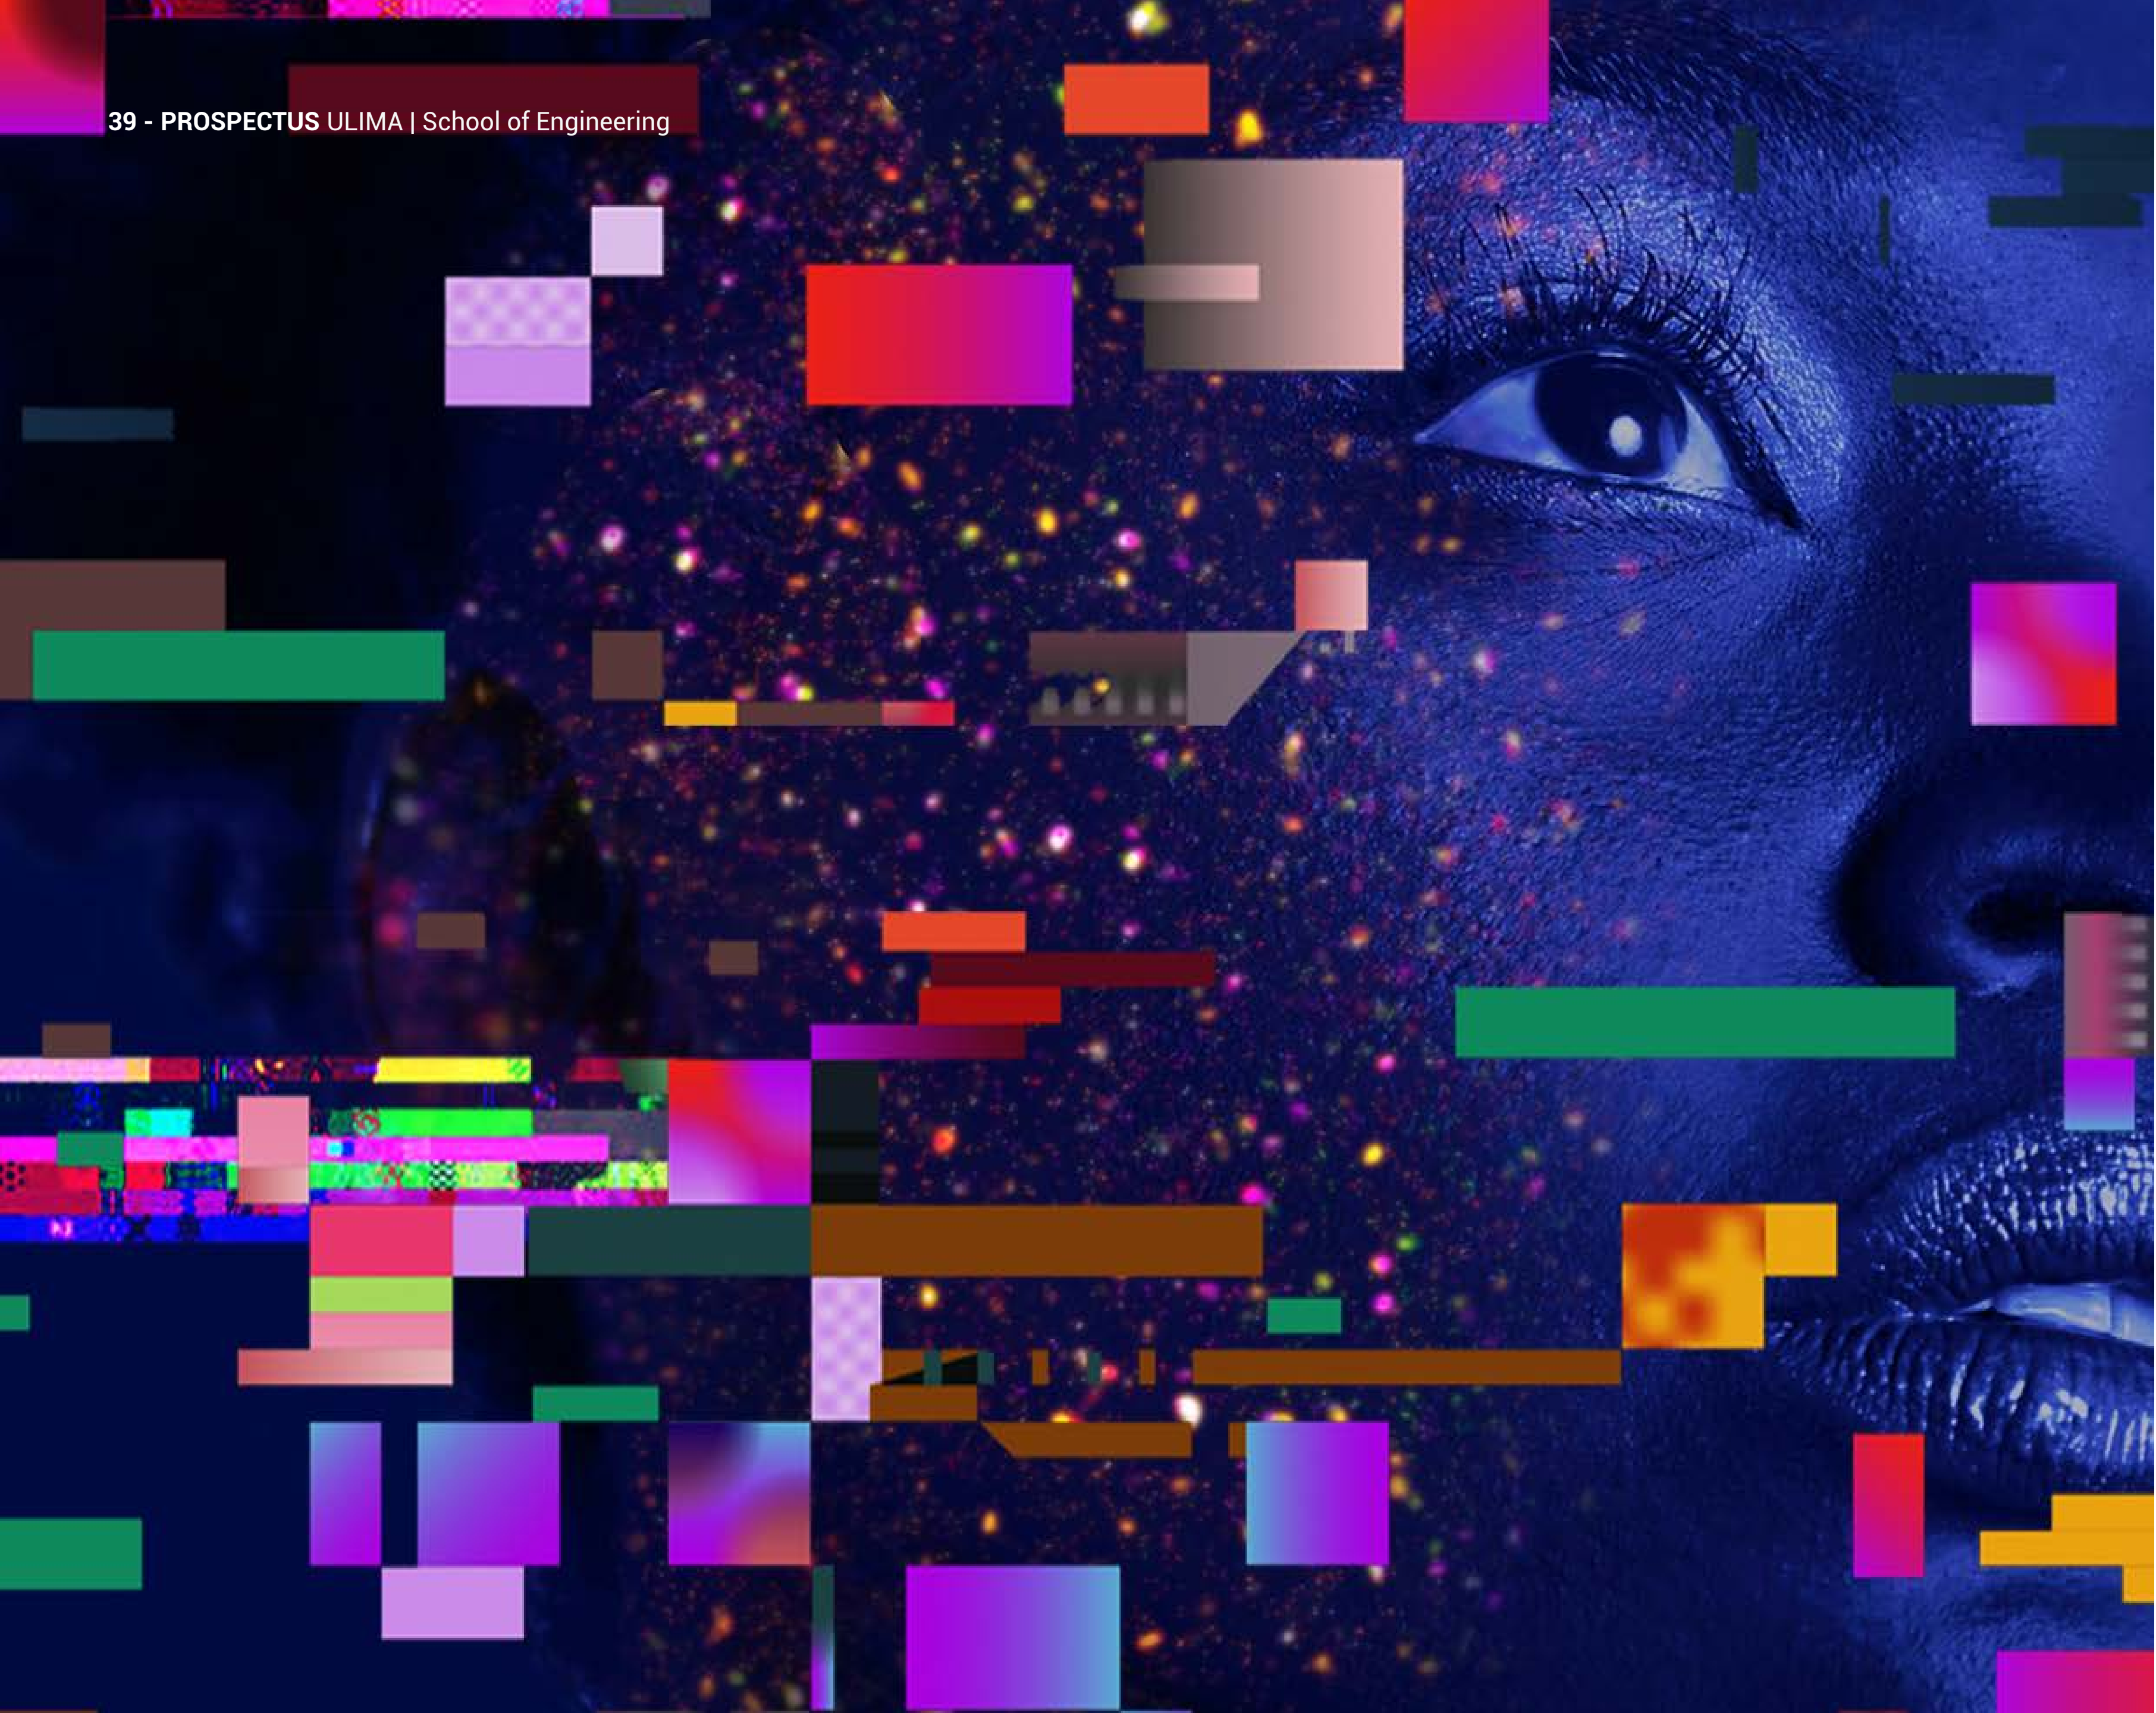

Some of them include:

- Fab Lab Ulima –Fab Foundation Laboratory Network from the Massachusetts Institute of Technology (MIT)—certified by CONCYTEC
- Flexible Manufacturing (CIM)
- Machines and Instruments
- Electrical Engineering
- Unit Operations
- Thermodynamics
- General Chemistry
- Physics I
- Physics II
- Smart Factory
- Artificial Intelligence

SYSTEMS ENGINEERING

—
IMPLEMENT SOLUTIONS USING
INFORMATION TECHNOLOGIES

THE WORLD NEEDS SYSTEMS ENGINEERS WHO LEAD TECHNOLOGICAL DISRUPTION IN ORGANIZATIONS.

YOU WILL FACILITATE SOLUTIONS USING TECHNOLOGY.

Our curriculum will prepare you to manage and implement information systems that help organizations achieve their strategic objectives through the use of technology.

YOU WILL DEVELOP SYSTEMS BASED ON INFORMATION TECHNOLOGIES.

Different subjects in programming, information technologies, analysis, management and research will help you understand the reality of organizations and propose innovative technological solutions.

WHY SYSTEMS ENGINEERING AT ULIMA?

- It ranks among the top three most in-demand professions by companies and among the highest paid nationwide. It holds second place in projected future growth and offers pathways to a wide range of positions¹ across industries.
- Ulima Systems Engineering is accredited by ABET², which supports the high international

quality standards that guarantee our academic excellence.

- Our systems engineers are among the best systems engineering graduates, according to the employers' perception¹, and among the highest paid nationally³.
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to participate in a second bachelor's degree program with the University of London (United Kingdom) and Universidad de Huelva (Spain).
- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica), and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

These are some of the laboratories where you will put what you have learned into practice:

- SAP Next-Gen Lab⁴
- IT Lab⁵
- Networking, Data Center and Mobile Technologies⁶
- Other labs: Physics and Ulima Fab Lab

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Information Systems
- Software Engineering
- Information Technology
- Video Game Development

¹ Source: Ipsos Perú (2025)

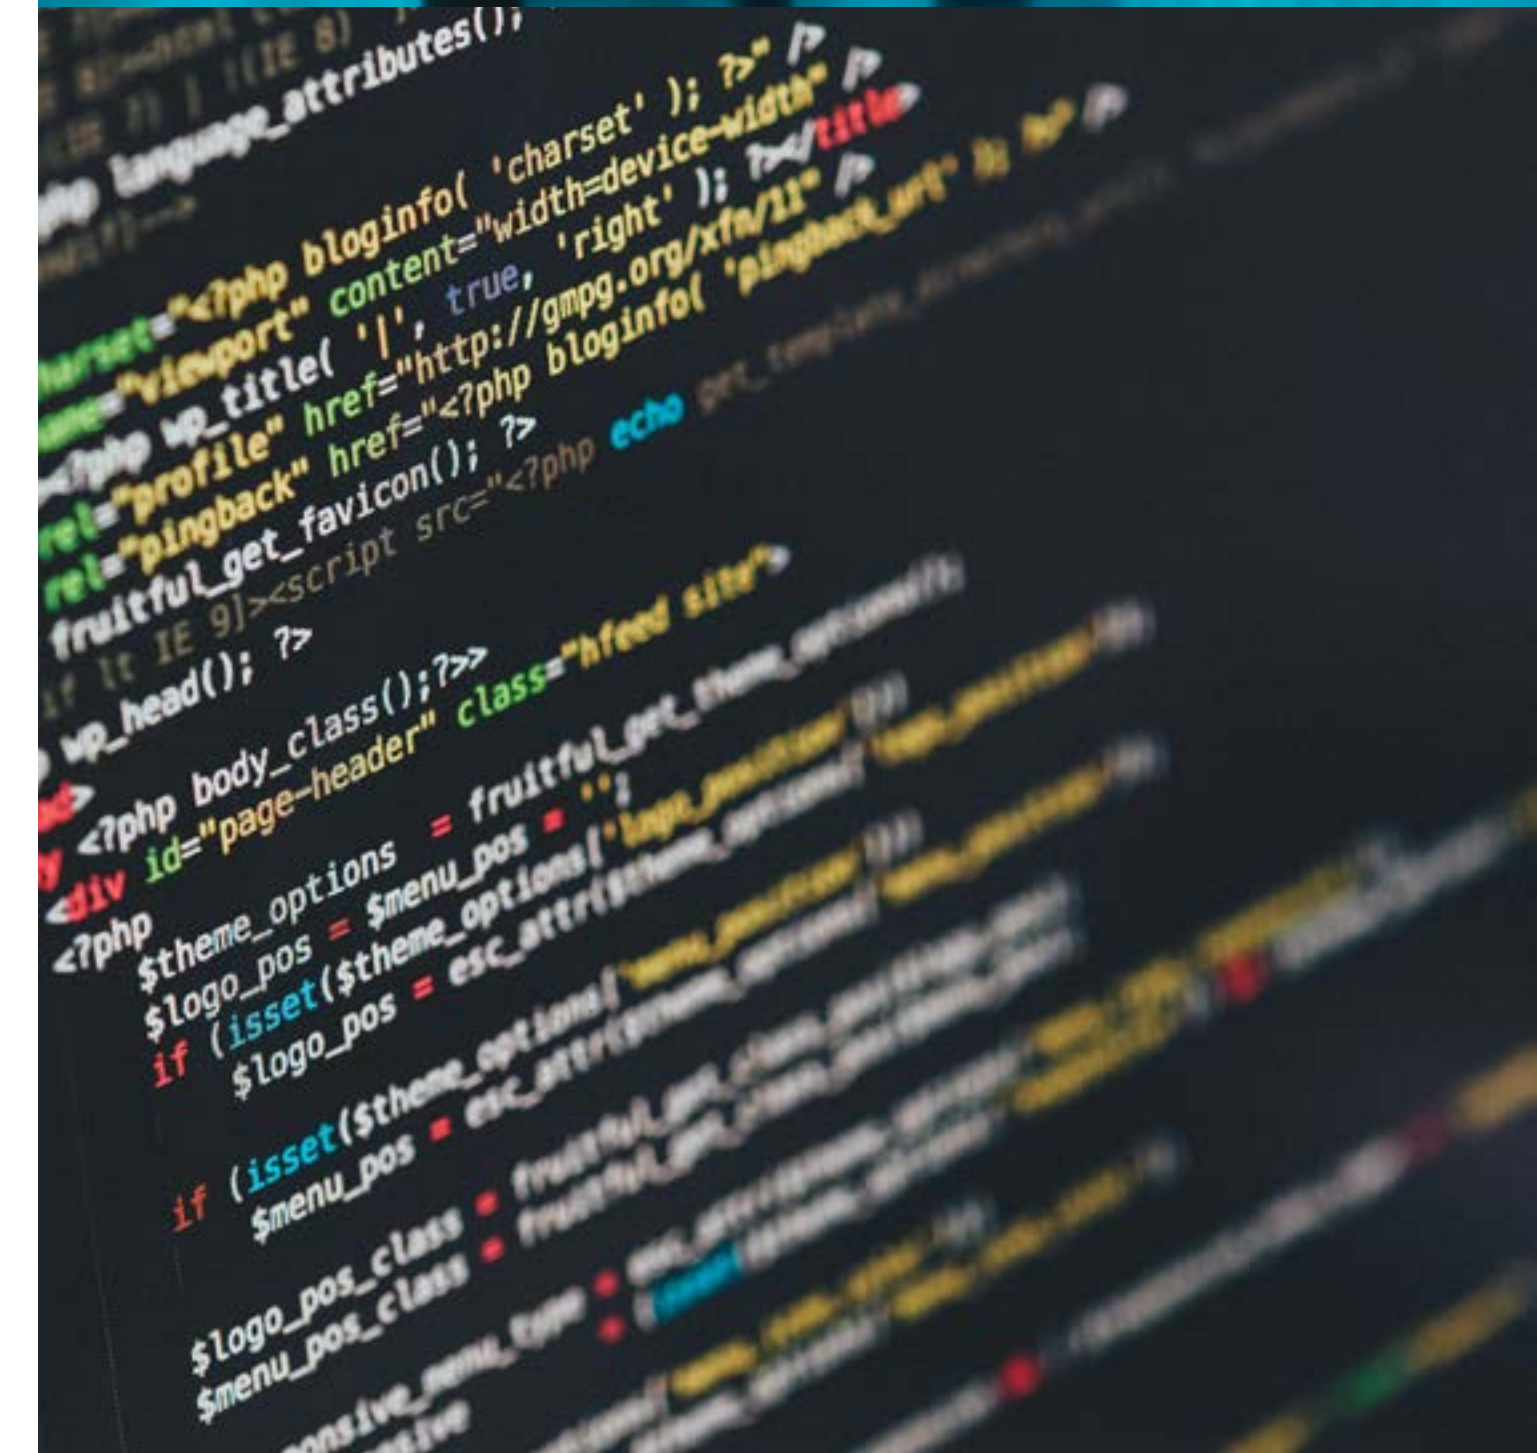

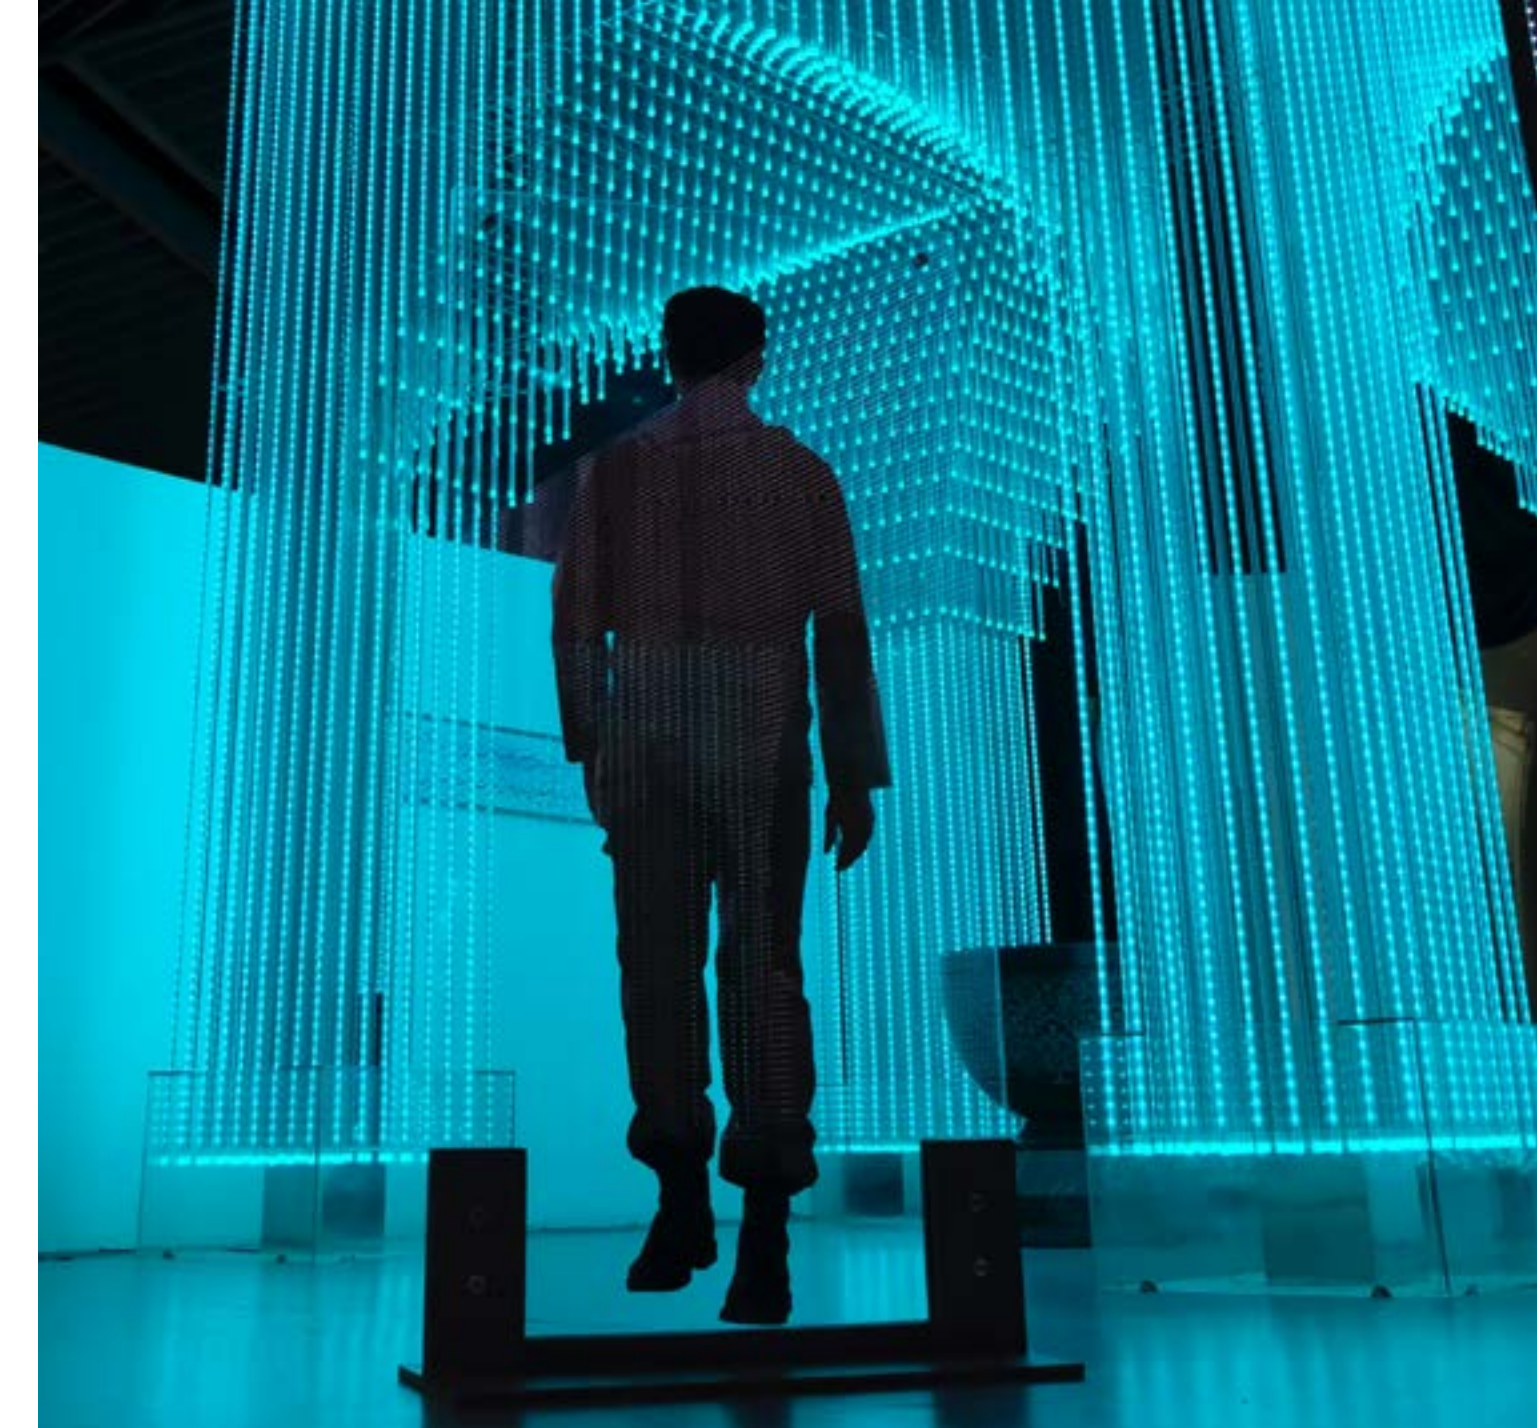

² In 2020, the Systems Engineering Undergraduate Program at Universidad de Lima was accredited by the Accreditation Board for Engineering and Technology (ABET), a prestigious organization that accredits higher education programs in applied and natural science, computing, engineering and engineering technology worldwide.

⁴ Backed by SAP Next-Gen. First laboratory in Peru and second in Latin America for co-innovation and entrepreneurship.

⁵ Digital factory where our students perform pre-professional internships and develop innovative projects with cutting-edge software and technology.

⁶ Academic laboratories implemented with state-of-the-art equipment: networks, data center and mobile technologies.

MARKETING

—
MANAGE VALUE CREATION
STRATEGIES FOR CONSUMERS AND
COMPANIES

THE WORLD NEEDS MARKETING PROFESSIONALS WHO MANAGE INNOVATION PROCESSES, VALUE CREATION AS WELL AS BRAND AND PRODUCT STRATEGIES IN CHALLENGING ENVIRONMENTS.

MANAGE BRAND STRATEGIES, MARKETS AND VALUE CREATION FOR CONSUMERS.

With the knowledge acquired, you will create value for the brands you manage and enhance their presence in national and international markets.

YOU WILL UNDERSTAND CONSUMER EXPECTATIONS.

You will manage brand strategies and the development of new products in different markets to satisfy customer needs. You will learn about people's habits and attitudes and their buying processes.

WHY MARKETING AT ULIMA?

- Marketing is among the professions with the greatest future projection and most in-demand by companies¹.
- Ulima is the university that produces most CEOs and general managers nationwide².
- You will be a responsible and ethical professional, focused on the welfare of the community.

- You will stand out for your ability to analyze the competition and your focus on the market, the consumers and the sustainability of businesses.
- You will develop the highest management competencies and marketing skills for correct decision-making, generating added value in organizations.
- Our curriculum is aligned with global educational trends in marketing management and leadership as well as consumer research.
- It ranks among the highest paid nationwide³.
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to get a second bachelor's degree from renowned universities in the United Kingdom, Australia or France.
- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Excezia Group (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica), and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

The **Applied Neuroscience Laboratory** (Ulima NeuroLab) is the first of its kind in Peru and the second in Latin America. The technological tools of Ulima NeuroLab focus on the study of human behavior. It is a multidisciplinary space to put the knowledge acquired into practice.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

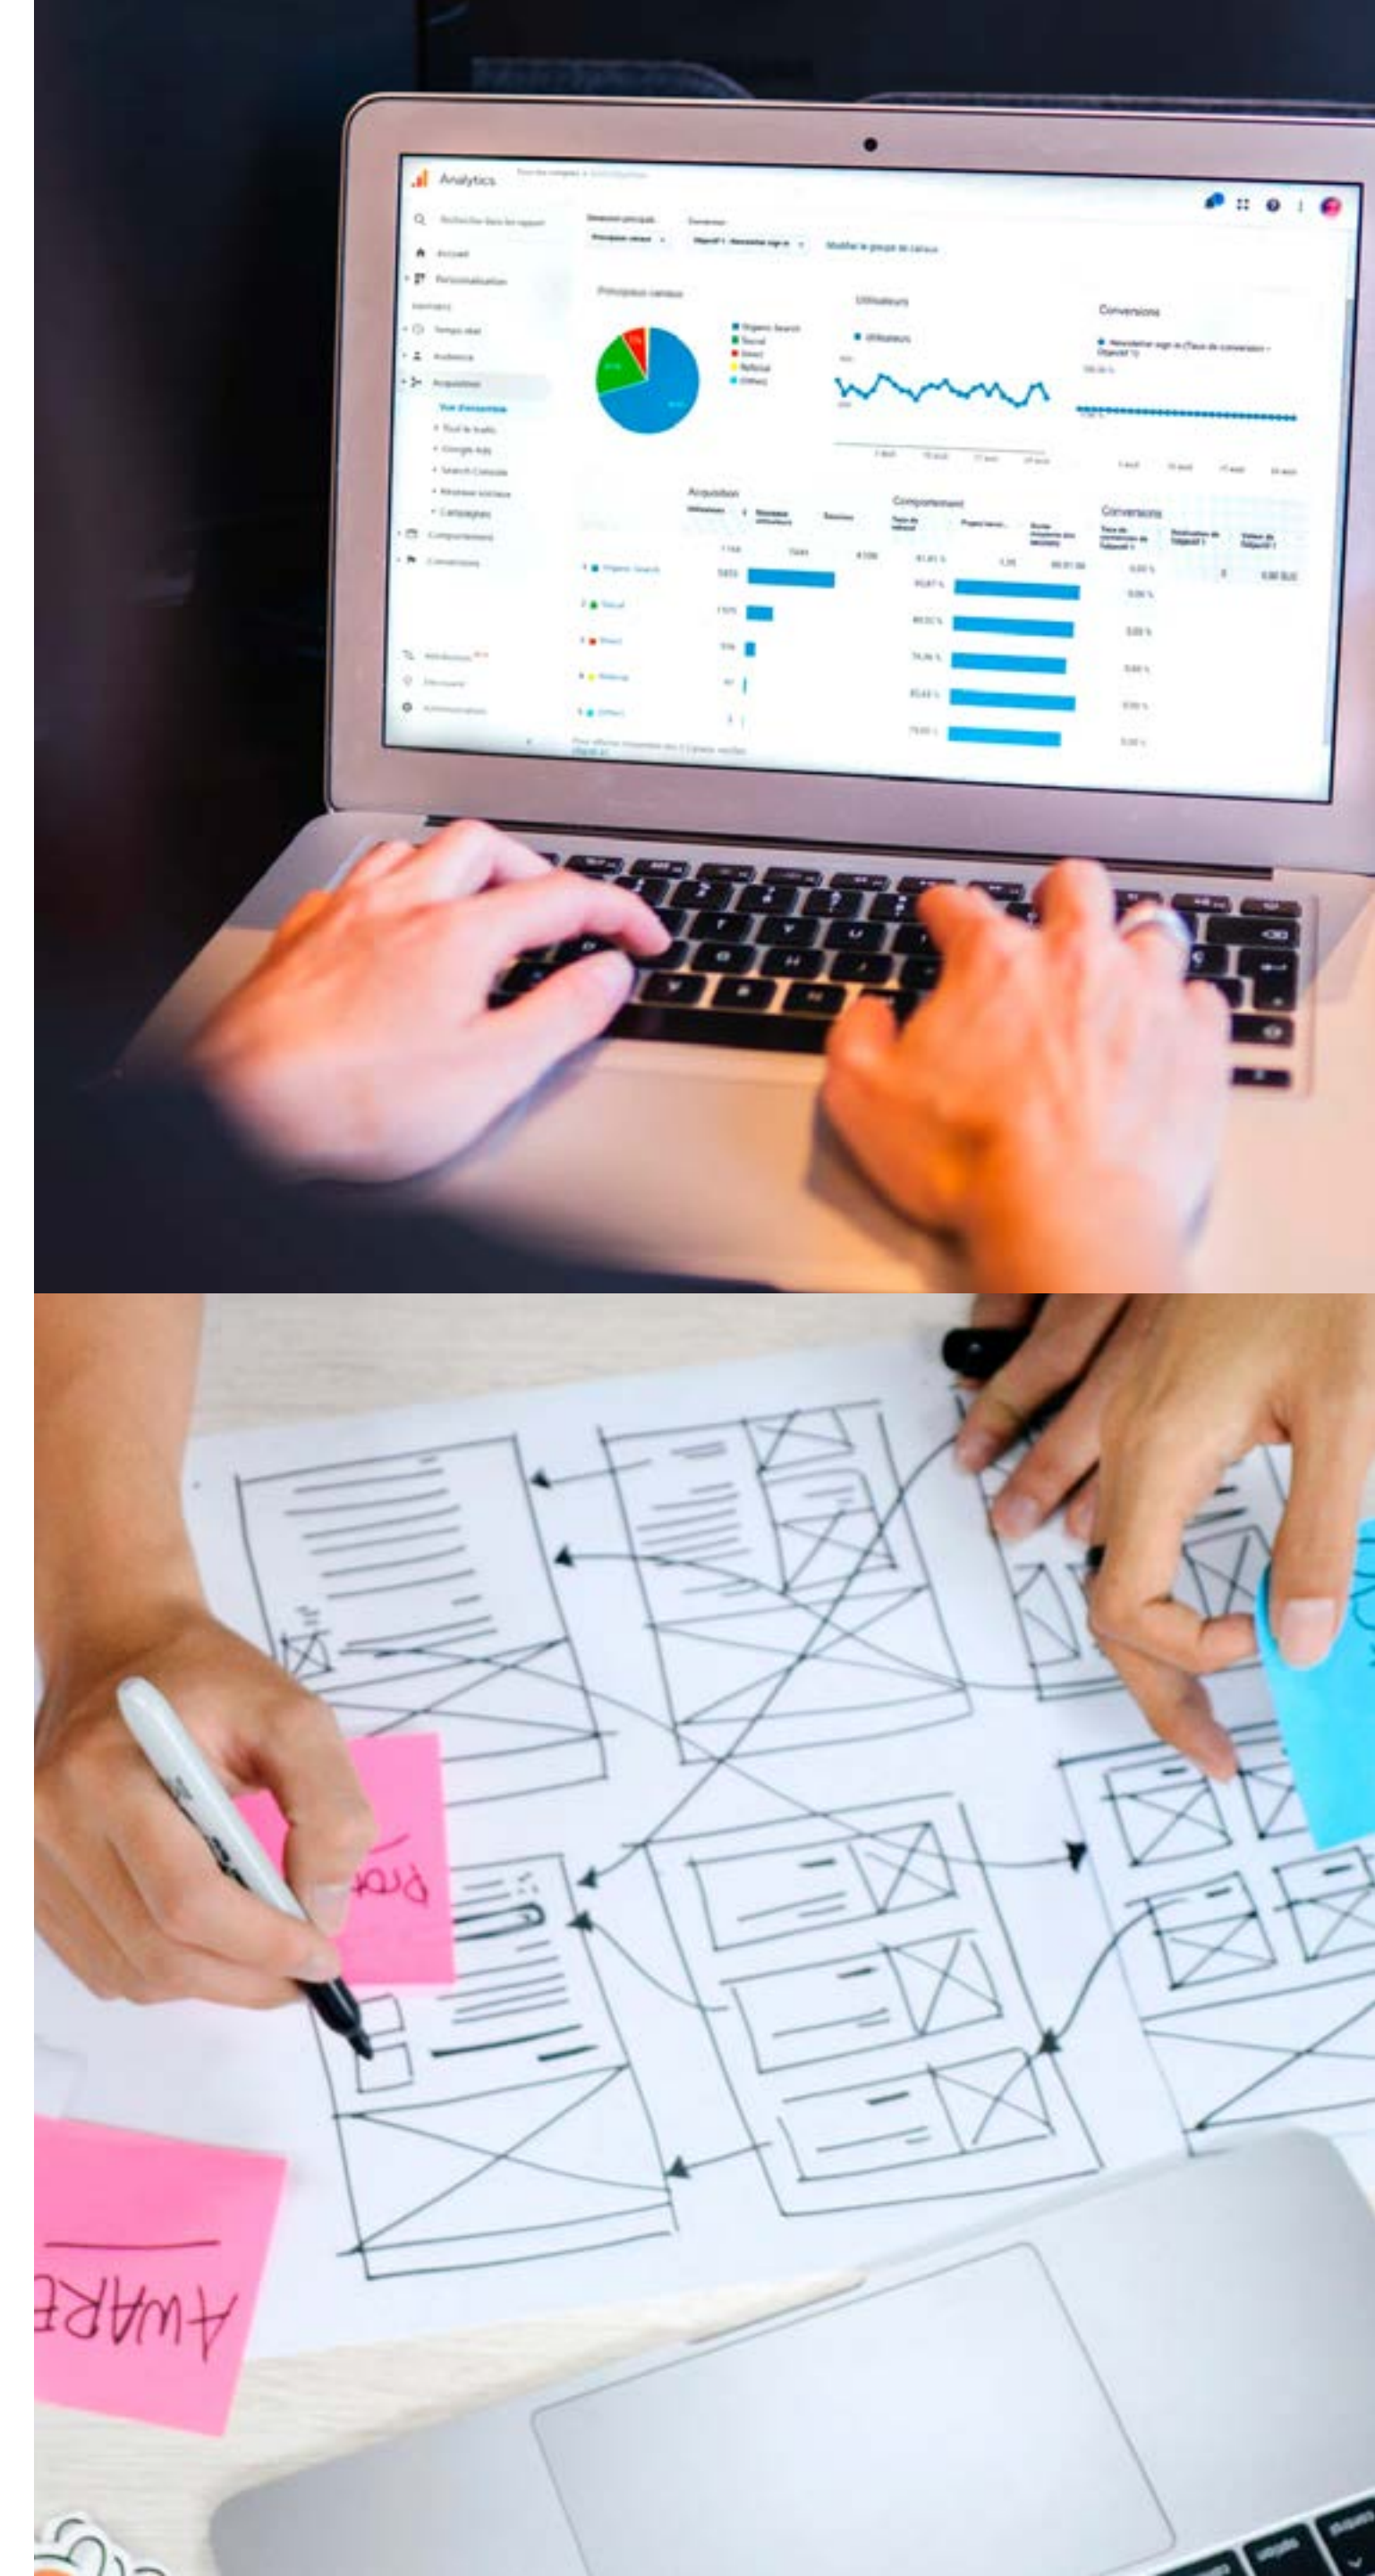

By pursuing this program, you may specialize in the following areas:

- Commercialization and Trade Marketing
- Strategic Brand Management
- Market Research and Consumer Behavior
- Digital Marketing
- Entrepreneurship in Innovation and Technology Marketing
- Entrepreneurship in Sports Marketing and Sponsorship
- Data Science and Machine Learning

INTERNATIONAL BUSINESS

—
LEAD BUSINESS BETWEEN
COUNTRIES

THE WORLD NEEDS INTERNATIONAL BUSINESS PROFESSIONALS WITH A GLOBAL VISION ORIENTED TO THE DEVELOPMENT, COMPETITIVE MANAGEMENT AND ENTREPRENEURSHIP OF BUSINESSES AND PROJECTS OF INTERNATIONAL SCOPE.

YOU WILL GUIDE COMPANIES TO FOREIGN MARKETS.

You will be able to identify business opportunities in international markets, and master global logistics management and knowledge in banking and finance. All this will help you to trade internationally the products and services you are in charge of. In addition, you will be able to develop your own business in a global context.

YOU WILL BECOME A GLOBAL NEGOTIATOR.

You will master international negotiation and marketing strategies, as well as the technological tools that will allow you to manage operations, commercial relationships and product development on an international scale.

WHY INTERNATIONAL BUSINESS AT ULIMA?

- International Business is among the professions with the greatest future projection¹.
- Ulima is the university that produces most CEOs and general managers nationwide².
- Our graduates are among the highest paid in the country³.
- They are professionals prepared for the working world, with more than 50% of classes taught in English.
- You will be able to live international experiences through our more than 190 agreements. Moreover, you will have the opportunity to get a second bachelor's degree from renowned universities in the United Kingdom, Australia or France.
- In addition, students have access to consecutive master's programs with Rennes School of Business (France), Excelia Group (France), Advantere School of Management (Spain), INCAE Business School (Costa Rica),

and Duke Fuqua (United States), providing the opportunity to continue their academic education through an international master's degree.

SPACES

Unique in Latin America, our **Stock Market Laboratory**, part of the Economic, Financial and Social Observatory, provides students with specialized tools and software currently available in the national and international capital market.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- International Market Intelligence and Big Data
- International Finance
- International Trade Logistics
- International Relations
- Sustainability and International Strategies

PSYCHOLOGY

—
PROMOTE THE
COMPREHENSIVE
DEVELOPMENT OF PEOPLE

THE WORLD NEEDS PSYCHOLOGISTS WHO HAVE A VOCATION FOR SERVICE, RESPECT AND INTEREST IN PEOPLE TO PROMOTE THEIR COMPREHENSIVE DEVELOPMENT.

YOU WILL HELP PEOPLE ACHIEVE THEIR GOALS.

Whether in companies or educational, sports or health institutions, you will have the tools to interpret people's mental processes and guide their professional and personal growth.

YOU WILL RESEARCH AND PARTICIPATE IN PROCESSES TO IMPROVE PEOPLE'S QUALITY OF LIFE.

You will apply and evaluate research methods, psychological instruments and intervention programs, selecting the strategies best suited to the reality studied.

SPECIALIST CERTIFICATIONS

You will be able to complement your education with elective subjects that will allow you to obtain, in addition to your bachelor's degree, one or more specialist certifications.

By pursuing this program, you may specialize in the following areas:

- Forensic Psychology
- Sports Psychology
- Neuroscience Applied to Organizational Behavior

WHY PSYCHOLOGY AT ULIMA?

- Top ranked among the highest paid graduates nationally¹.
- Our graduates are trained to develop in the different branches of psychology, such as clinical, educational, social, business, among others.
- You will apply the theory in real scenarios in our laboratories or through agreements with companies, educational institutions, clinics and hospitals.
- You will develop your vocation for service and help the community through the various social projects in which our students and professors participate.
- You will have access to international experiences through more than 190 exchange agreements. In addition, you may pursue a second bachelor's degree with University of London (United Kingdom) or Universitat Abat Oliba CEU (Spain).
- In addition, students have access to consecutive master's programs with Advantere School of Management (Spain), providing the opportunity to continue their academic education through an international master's degree.

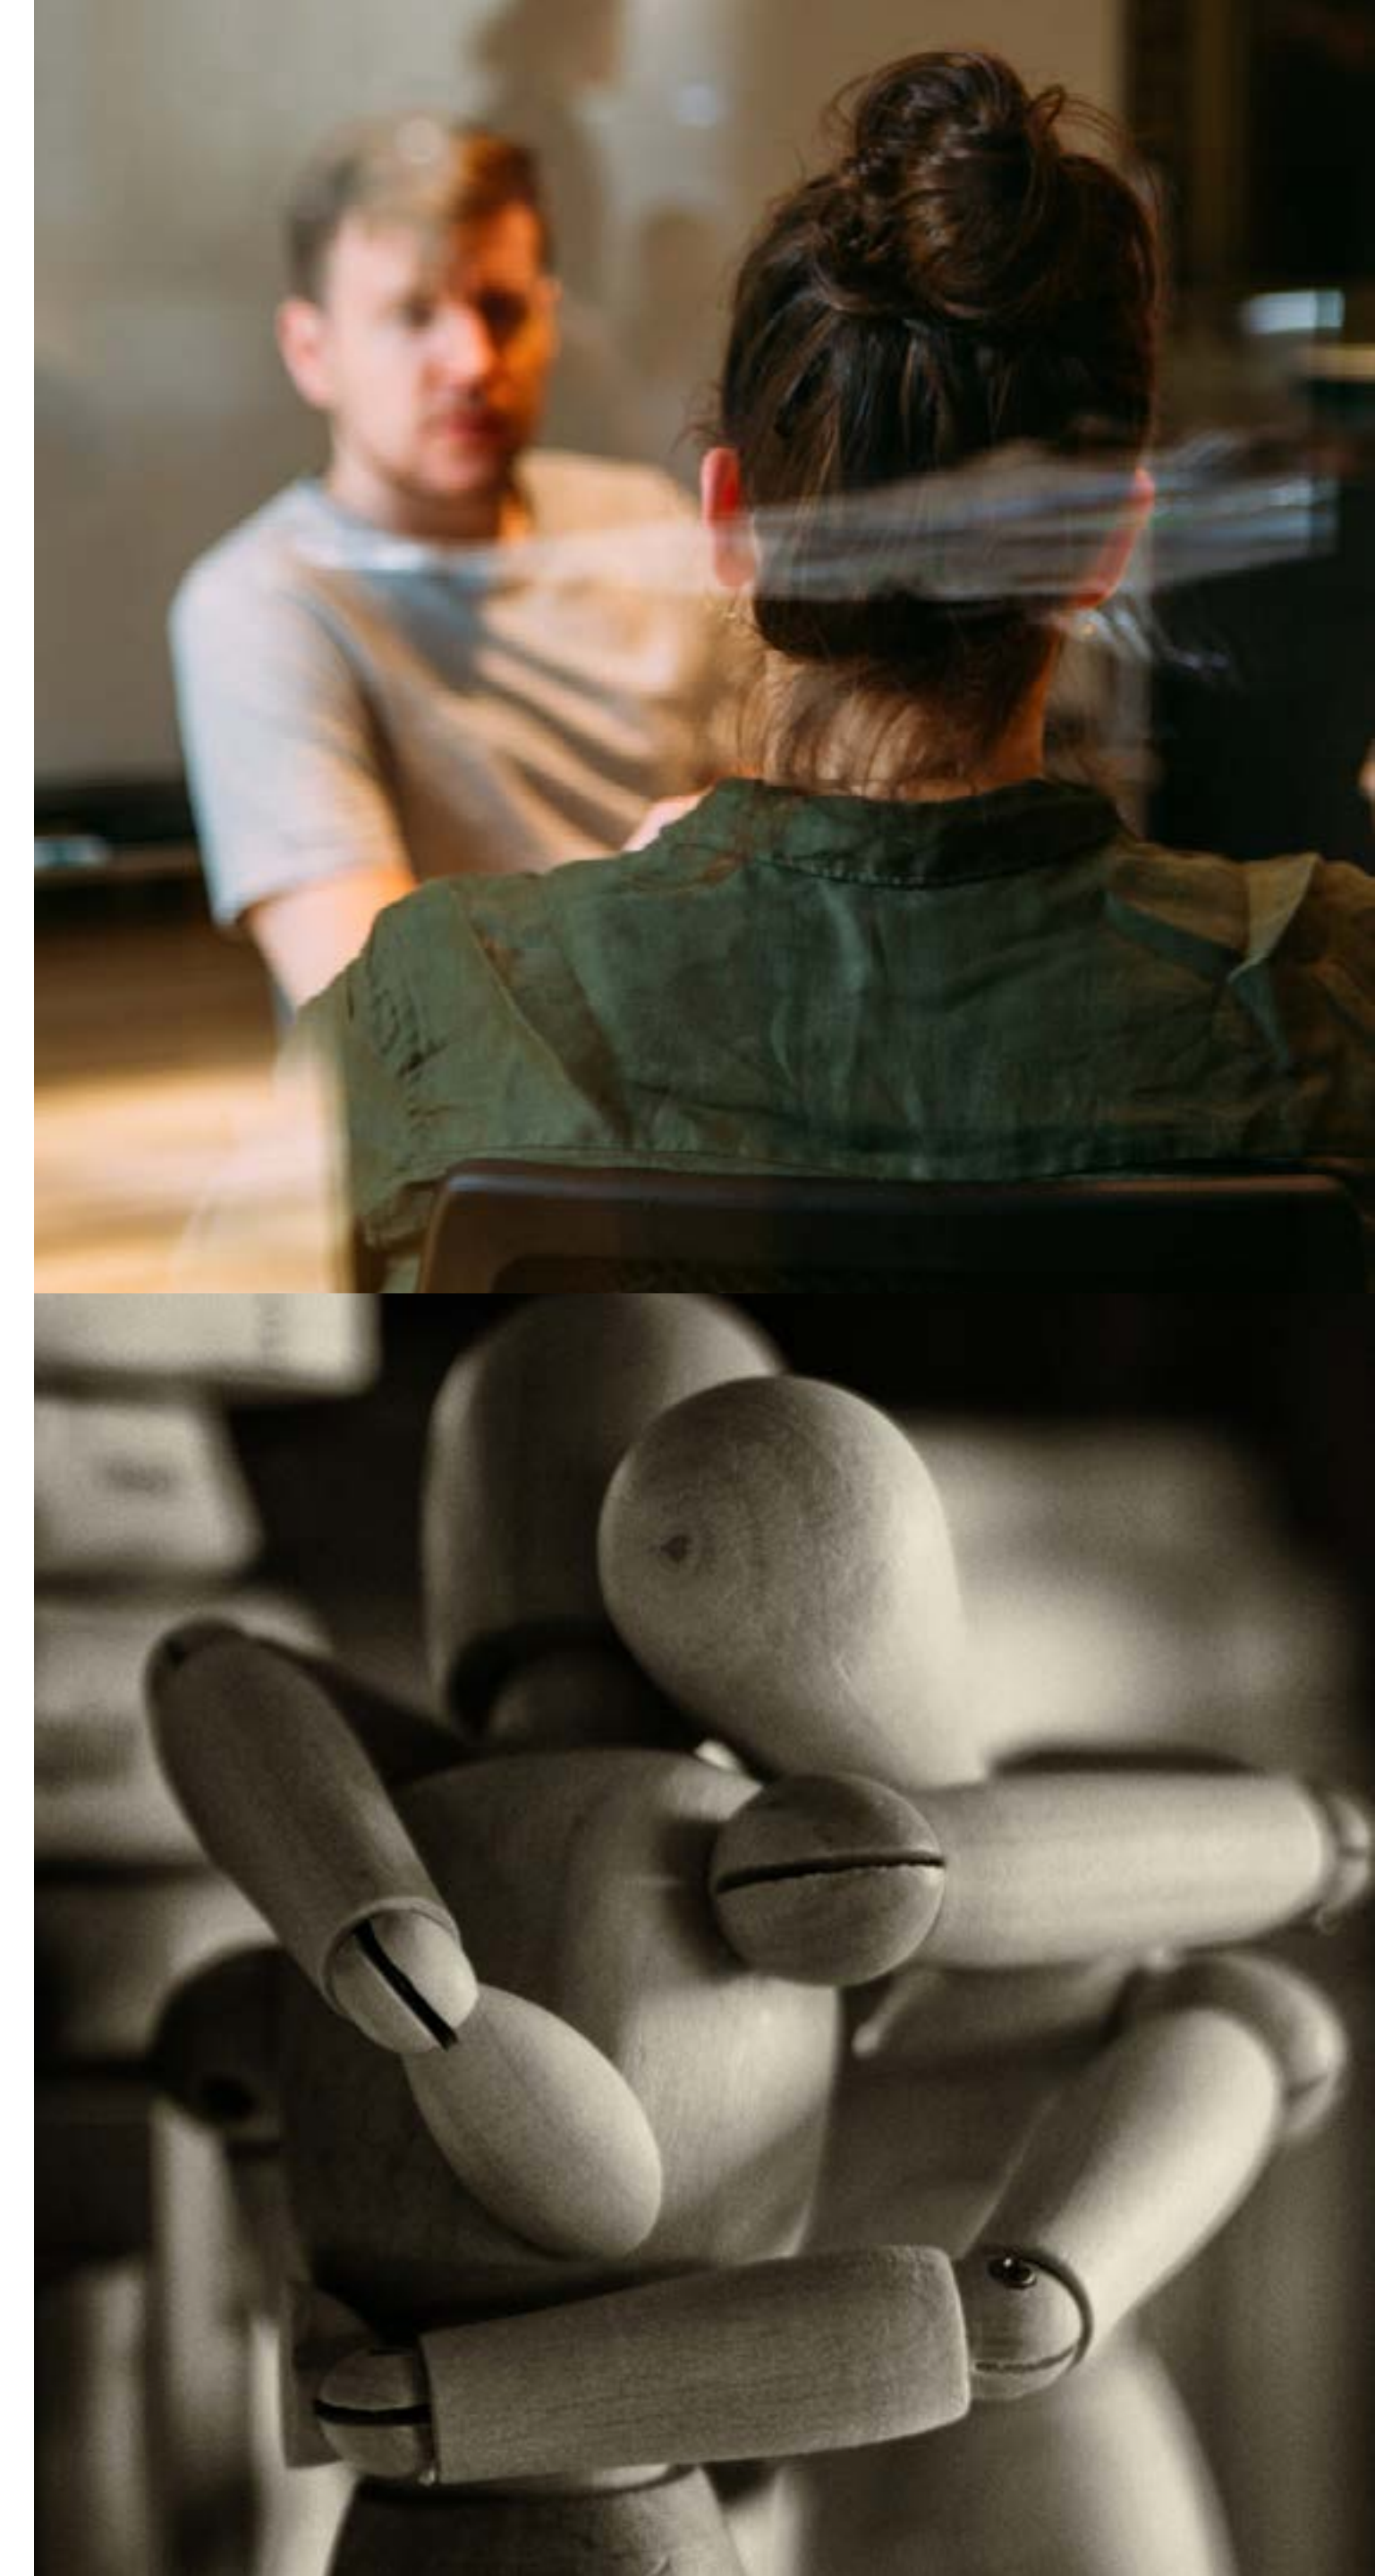

SPACES

We have spaces where our students can apply what they have learned:

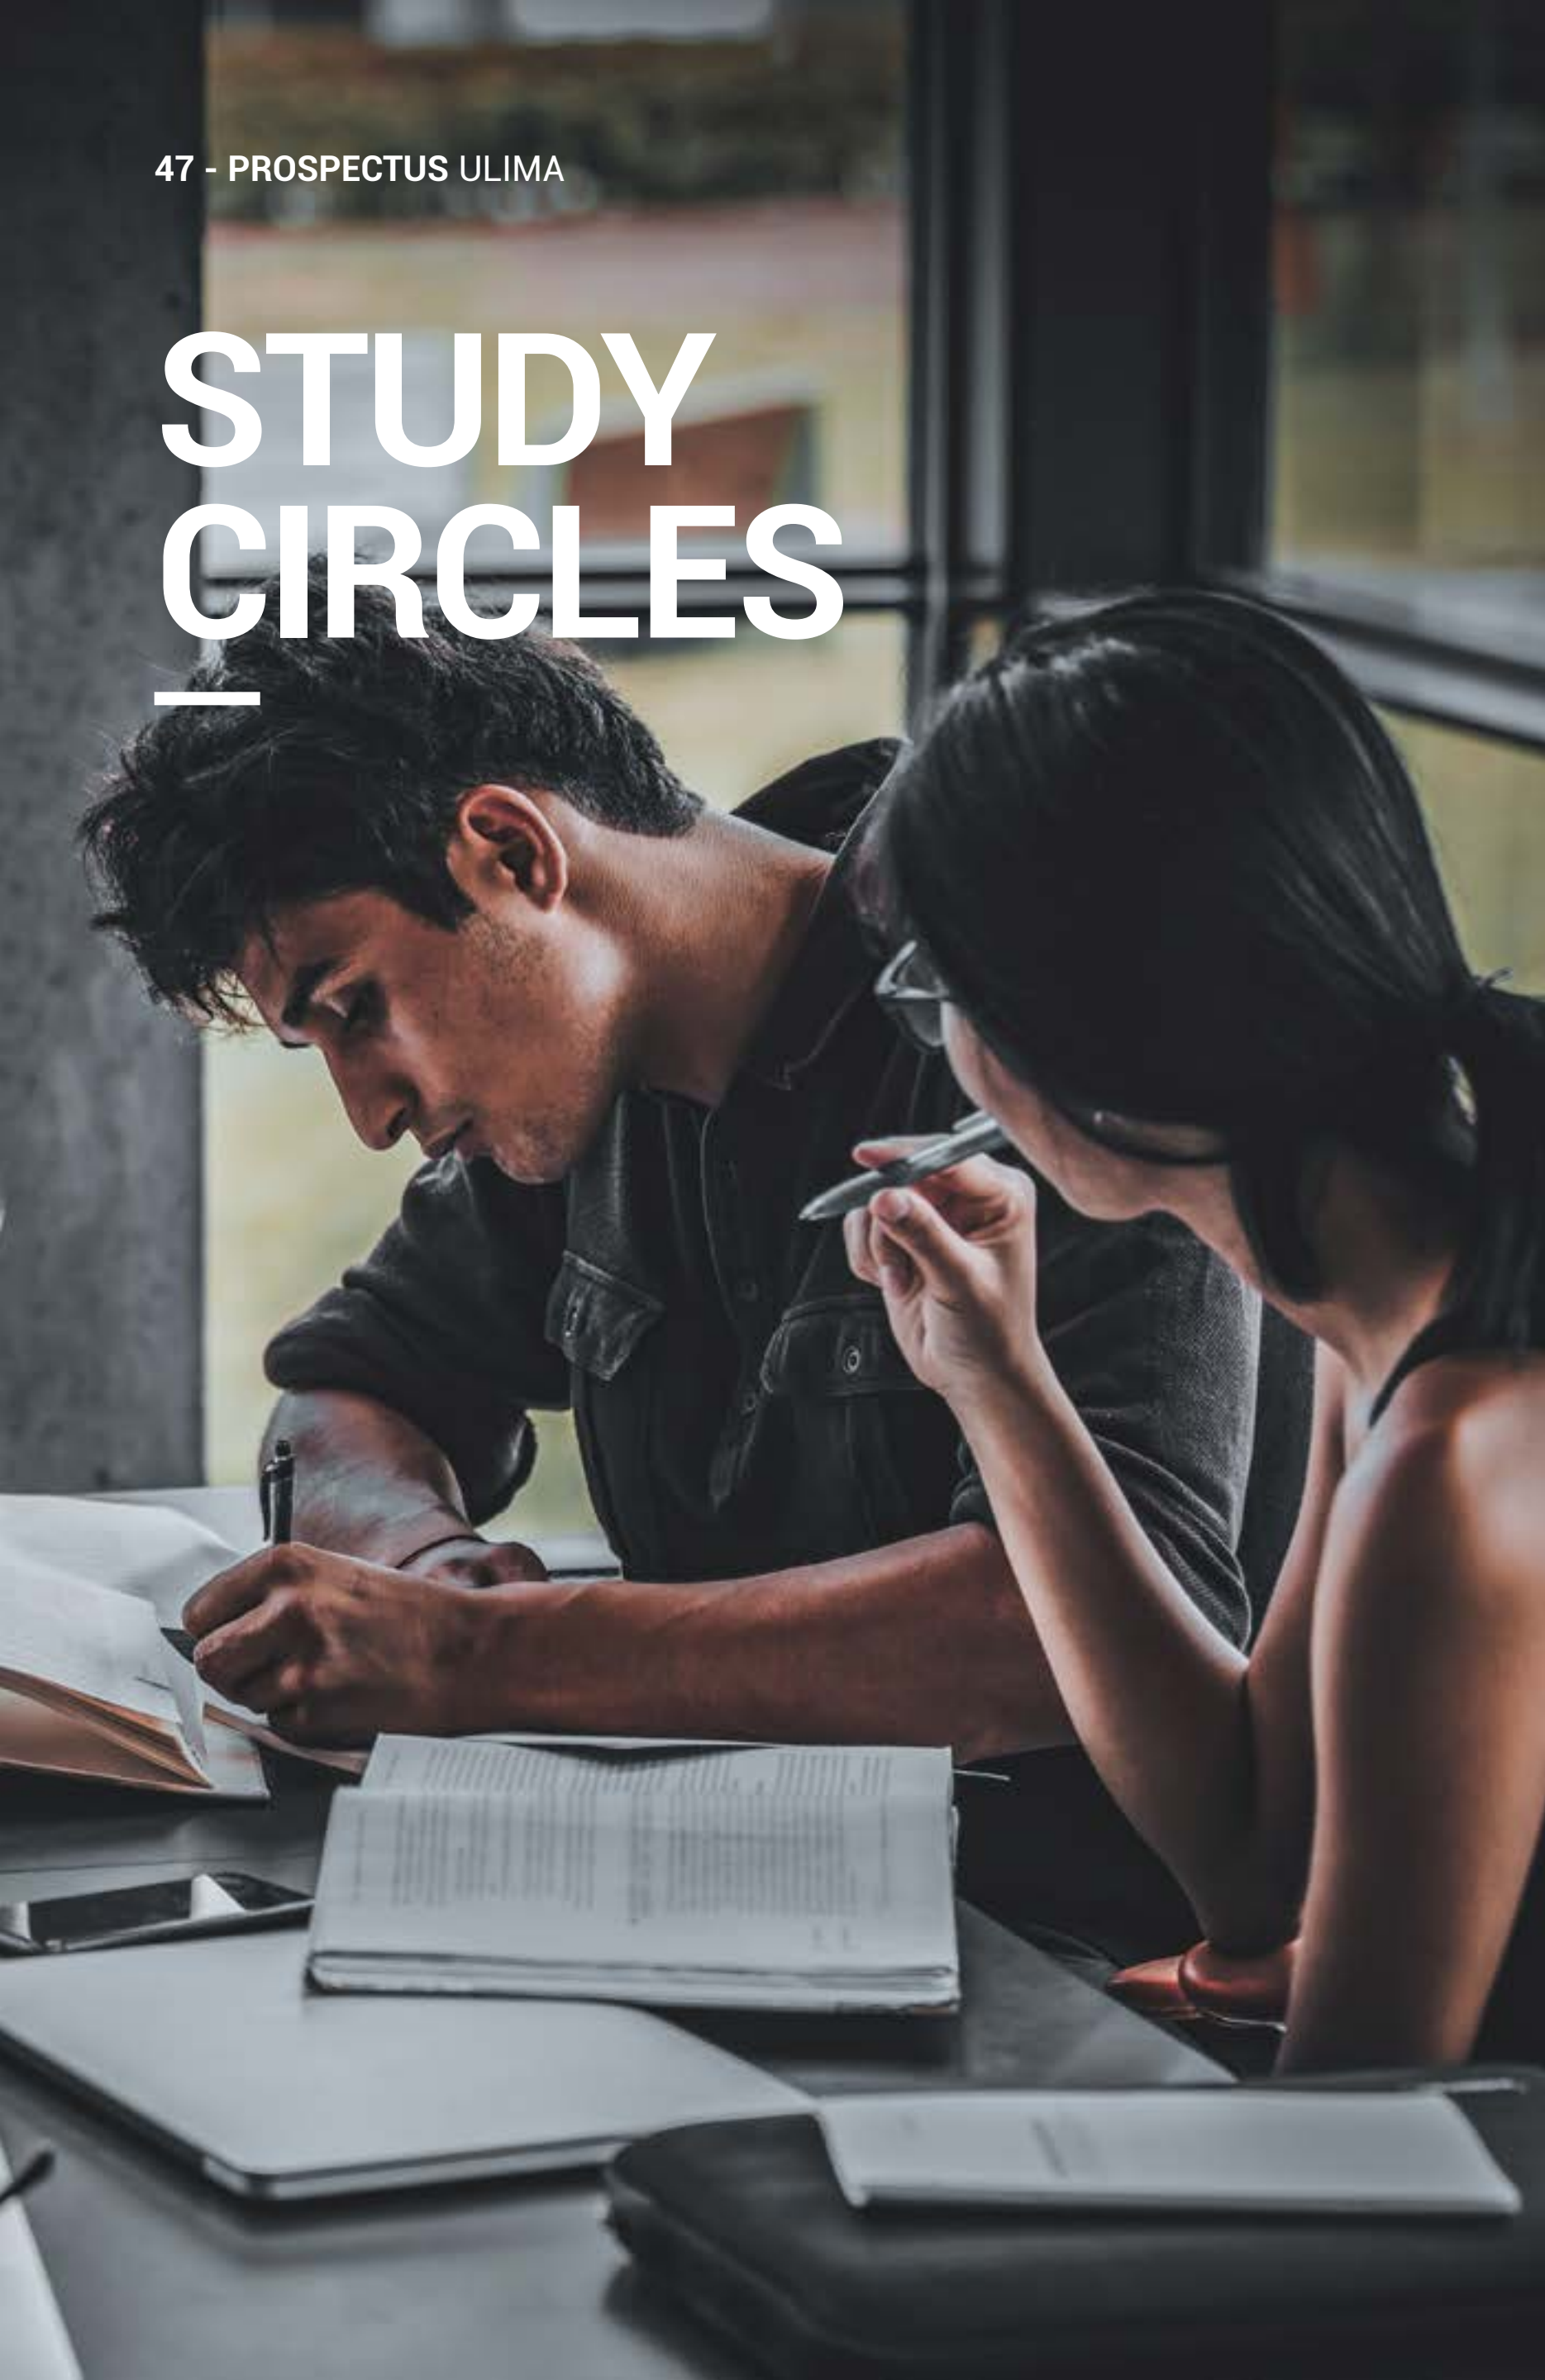

- Individual intervention room
- Observation room
- Group intervention room
- Psychometric office
- Experiment room
- Virtual laboratory

The **Applied Neuroscience Laboratory** (Ulima NeuroLab) is the first of its kind in Peru and the second in Latin America. The technological tools of Ulima NeuroLab focus on the study of human behavior. It is a multidisciplinary space to put the knowledge acquired into practice.

ADMISSION TO PROGRAM STUDIES

Learn about other modalities at

ulima.edu.pe/admision

¹ Universidad de Lima reserves 5% of vacancies for people with disabilities, in accordance with the provisions of Law 29973.

ONLINE PRE LIMA¹

THE PRE-UNIVERSITY CENTER OFFERS YOU THE OPTION OF DIRECT ADMISSION TO ULIMA.

When?²

- For fifth-year high school students
AUGUST
- For high school graduates
JANUARY, APRIL AND AUGUST

IF YOU PASS BOTH SUBJECTS (ARTS AND SCIENCE) AND EARN A PLACE ON THE HONOR ROLL, YOU WILL BE ADMITTED TO ULIMA. ENROLLMENT IS SUBJECT TO SPACE AVAILABILITY.

The contents of Pre Lima are aligned with the General Studies subjects to help you achieve a strong academic performance when you start at Ulima.

Pre Lima offers you:

- Online workshops on emotional intelligence, leadership, teamwork, study habits, effective time management, and coping with academic stress and test anxiety.
- Academic and career counseling.
- Flipped classroom methodology, where students acquire a more active role in their learning process and professors act as facilitators and guides for the achievement of objectives.

Find out the schedule and requirements at ulima.edu.pe/admision

¹ **Note:** Students will take two online graded tests and two in-person exams at Universidad de Lima.

² Dates subject to change.

SCHOOL STUDENT ADMISSION EXAM

AIMED AT:
FIFTH-YEAR HIGH SCHOOL STUDENTS

When?¹
NOVEMBER

REQUIREMENTS

- Valid ID: National Identity Card (DNI) for Peruvians and Alien Registration Card (ARC) or passport for foreigners.
- Copy of fifth-year high school report card (any term), signed and sealed by the school of origin representative.
- Registration fee payment.

ADMISSION EXAM

AIMED AT:
HIGH SCHOOL GRADUATES

When?¹
MARCH AND JULY

REQUIREMENTS

- Valid ID: National Identity Card (DNI) for Peruvians and Alien Registration Card (ARC) or passport for foreigners.
- Complete official high school transcript or certificate of learning achievements.
- Registration fee payment.

Check the calendars and other requirements of the processes at ulima.edu.pe/admission

¹Dates subject to change.

INTERNATIONAL BACCALAUREATE DIPLOMA

DIRECT ADMISSION TO ULIMA WITH THE INTERNATIONAL BACCALAUREATE DIPLOMA (IBO, ABITUR, LYCEUM OR BACCALAURÉAT).

VALIDITY

Three years from the completion of the International Baccalaureate. If, in addition, you obtained high scores, you may validate General Studies subjects¹ according to the following table:

BACCALAUREATE DIPLOMA	MINIMUM SCORE TO VALIDATE GENERAL STUDIES SUBJECTS	MINIMUM SCORE TO VALIDATE THE FULL GENERAL STUDIES PROGRAM
IBO (Fifth)	28	N/A
IBO (Sixth)	28	34
Abitur	55	94
Lyceum	65	N/A
Baccalauréat	11	Honors: <i>Assez bien, bien</i> or <i>très bien</i> .

¹ Find out the transfer credit table at ulima.edu.pe/admission

REQUIREMENTS

- Valid ID: National Identity Card (DNI) for Peruvians and Alien Registration Card (ARC) or passport for foreigners.
- Registration fee payment.

ADDITIONAL REQUIREMENTS FOR HIGH SCHOOL GRADUATES

- Complete official high school transcript or certificate of learning achievements.
- Authenticated copy of the international Baccalaureate diploma.
- Authenticated copy of the International Baccalaureate transcript.

ADDITIONAL REQUIREMENTS FOR FIFTH-YEAR HIGH SCHOOL STUDENTS

- Copy of fifth-year high school report card (any term), signed and sealed by the school of origin representative.
- Admission will be conditioned to the submission of the student's official high school transcript (from the first to the fifth year of high school) with all curricular areas and competencies approved, authenticated copy of the International Baccalaureate diploma, and authenticated copy of the International Baccalaureate transcript.

ADMISSION BASED ON ACADEMIC PERFORMANCE¹ (SCHOOLS SELECTED BY ULIMA)

STUDENTS ENROLLED IN HIGH SCHOOLS SELECTED BY UNIVERSIDAD DE LIMA ARE ELIGIBLE TO APPLY THROUGH THIS ADMISSION MODALITY.

Aimed at fifth-year high school students² and graduates who meet one of the following requirements:

- In the fourth year of high school, a maximum of 7 times "B" and no "C" in the final grade; or
- In the fifth year of high school, a maximum of 5 times "B" and no "C" in the final grade.

This modality includes an evaluation. Once the application process is complete, a virtual interview will be scheduled. To be admitted, applicants must earn a passing score on the evaluation and secure a place on the Honor Roll within the available seats.

Admission is conditioned upon submission of the official high school transcript covering the first through fifth years of high school. Applicants may not have received a "C" as a final grade in the fifth year of high school or in any curricular competency subject to academic remediation.

Applicants who do not obtain a passing score may not apply again under this modality. All decisions are final and unappealable.

VALIDITY

Fifteen (15) months from the completion of secondary education.
Enrollment is subject to space availability.

For more information, visit ulima.edu.pe/admission

¹ To learn more about the requirements for the Admission Based on Academic Performance, send an email to postulantespregrado@ulima.edu.pe

² For students graduating from high school in 2026.

REQUIREMENTS

- Valid ID: National Identity Card (DNI) for Peruvians and Alien Registration Card (ARC) or passport for foreigners.
- Registration fee payment.

ADDITIONAL REQUIREMENTS FOR HIGH SCHOOL GRADUATES

- Official high school transcript or certificate of completed learning achievements (first through fifth years), demonstrating successful completion of all curricular areas and competencies. Applicants must not hold a final "C" grade in the fifth year of secondary education or have pending remedial competencies in any curricular area.

ADDITIONAL REQUIREMENTS FOR FIFTH-YEAR HIGH SCHOOL STUDENTS

- Copy of fifth-year high school report card (any term) or certificate evidencing enrollment in the fifth year of high school.
- Certificate of learning achievements for the third and fourth year of high school, with grades per year that meet the above requirements.

Admission will be conditioned to the submission of the student's official high school transcript (from the first to the fifth year of high school) according to the provisions of this process.

It is an essential requirement to have completed the fourth and fifth years of secondary education at a school selected by Universidad de Lima.

Applicants under this modality who are not admitted may take the Student School Admission Exam, scheduled for November, provided they meet the eligibility requirements.

HIGHEST RANKING

IF YOU FINISHED HIGH SCHOOL AND, ADDITIONALLY, YOU RANKED FIRST OR SECOND IN YOUR CLASS HONOR ROLL, THIS IS THE BEST OPTION FOR YOU.

AIMED AT:
SCHOOL GRADUATES IN PERU

When?¹
MARCH AND JULY

VALIDITY
Fifteen months from the completion of high school.

REQUIREMENTS

- Valid ID: National Identity Card (DNI) for Peruvians and Alien Registration Card (ARC) or passport for foreigners.
- Complete official high school transcript or certificate of learning achievements.
- Original certificate evidencing that you ranked first or second in your class honor roll, according to your high school grade point average from the third to the fifth year of high school. This certificate must include the signatures and seals of the school of origin representative, as well as those from the corresponding Local Education Management Unit (UGEL).
- Registration fee payment.

QUALIFIED ATHLETES

AIMED AT:
QUALIFIED ATHLETES CERTIFIED BY THE PERUVIAN SPORTS INSTITUTE (IPD)

When?¹
MARCH AND JULY

VALIDITY
Twenty-four months from the completion of high school.

REQUIREMENTS

- Certificate evidencing the status of qualified athlete, issued by the Peruvian Sports Institute (original document):
 - For Qualified Athletes: no older than one year.
 - For High-Level Qualified Athletes: no older than two years.
- Valid ID: National Identity Card (DNI) for Peruvians and Alien Registration Card (ARC) or passport for foreigners.
- Complete official high school transcript or certificate of learning achievements.
- Registration fee payment.

TUITION FEE

WE HAVE FIVE TUITION FEE CATEGORIES WHICH ARE ASSIGNED TO STUDENTS ACCORDING TO THEIR SCHOOL OF ORIGIN,¹ FOR WHICH THE LAST THREE YEARS OF STUDY ARE TAKEN INTO ACCOUNT. STUDENTS MAINTAIN THESE CATEGORIES DURING THEIR UNDERGRADUATE STUDIES. THERE IS NO SOCIOECONOMIC EVALUATION.

YOU ONLY PAY FOR THE CREDITS YOU TAKE.

TUITION FEE CATEGORIES EFFECT AS FROM 2024

TUITION FEE CATEGORY	PER-CREDIT COST ²
P	PEN 979
Q	PEN 780
R	PEN 636
S	PEN 544
T	PEN 460

These are referential costs and may be subject to change. Tuition fees do not include offprints or books.

HOW IS THE TUITION FEE INSTALLMENT PLAN IN A REGULAR ACADEMIC TERM?

FIRST INSTALLMENT	SECOND INSTALLMENT	THIRD INSTALLMENT	FOURTH INSTALLMENT	FIFTH INSTALLMENT
Registration fee + 4 tuition credits	1/4 of tuition balance	1/4 of tuition balance	1/4 of tuition balance	1/4 of tuition balance

HOW MANY CREDITS SHOULD I TAKE PER ACADEMIC TERM?

Incoming students are enrolled in 20 credits, with the exception of Architecture Undergraduate Program students who are enrolled in 22 credits. From the second semester on, they can enroll in the number of credits they choose.

Access to our tuition fee calculator at ulima.edu.pe/admission

¹ Undergraduate students who have completed their studies at the University or at any higher education institution are assigned the first or second highest category, as determined by the Welfare Bureau.

² The credit is the unit of value assigned to subjects. In order to graduate, each program requires a certain number of passed credits.
